U.S. State Eases Law On Abortion

DENVER (UPI)—Gov. John A. Love, after "thorough soul searching," signed a bill Tuesday giving Colorado the most liberal abortion law in North America. He denied it would make his state an "abortion mecca."

Radar Plane Crashes

NANTUCKET, Mass. (AP)—Fearing flames from its belly, a U.S. Air Force radar plane crashed and exploded in the sea Tuesday night, a mile off the Massachusetts shore of Nantucket Island.

One survivor of the 16-man crew was taken to the Nantucket cottage hospital.

General's Trip Scored

WASHINGTON (AP)—Senate critics challenged Tuesday the course of American policy in Vietnam and the home-front mission of Gen. William C. Westmoreland. They raised the spectre of a conflict widening into world war. (See also Page 2.)

Senator J. W. Fulbright (Dem. Ark.) said the Johnson administration is trying to step up the Vietnam war and to link dissent at home with treason.

Senator Stephen M. Young (Dem. Ohio) said Westmoreland was summoned home from his post as U.S. commander in Vietnam "to lobby for further escalation of the war."

"ON TO TREASON"

Fulbright, chairman of the Senate foreign relations committee, said Westmoreland's criticism of Americans who protest against the war is part of an effort "to shut up" dissenters. "This criticism of dissent will lead to charges of disloyalty and then to muddle-headedness and then to treason," Fulbright told the Senate.

"They're coming pretty close."

Love, a Republican mentioned as a possible candidate for vice-president next year, said it was the most difficult decision of his political life.

"I realize full well that we are dealing in legislation with a matter of supreme importance—that of the reproductive process and with life itself," Love said. "However, I believe that the bill as written contains safeguards and is designed to do something about areas of suffering and shame which have been of concern to a great many people for a great period of time."

WIDE MARGINS

The former attorney who was elected governor in 1963 in his first try at public office said, "The illegally procured abortion is a matter which concerns all of us."

The bill passed both houses of the Colorado legislature two weeks ago by wide margins, despite threatening letters to legislators, hissing from the galleries and picketing outside the state Capitol by Catholic mothers, some carrying babies.

One state senator said it was "a bill against motherhood."

THREE-DOCTOR BOARD

The measure would allow abortions in cases where a three-doctor board in accredited hospital agreed unanimously that:

• The pregnancy would result in the death of the mother or serious, permanent impairment of her physical or mental health.

• The child would likely be born "with grave and permanent physical deformity or mental retardation."

• The pregnancy resulted from forcible rape or incest and no more than 16 weeks of gestation had passed.

• Girls under 16 become pregnant from statutory rape or incest.

State Senator John Bermingham, chief sponsor of the bill in the Senate, said it would help reduce an estimated 5,000 deaths a year in the U.S. from illegal abortions.

The measure has no Colorado residency requirement, meaning women from other states could get an abortion in Colorado if they qualified under the law.

"STATE MURDER"

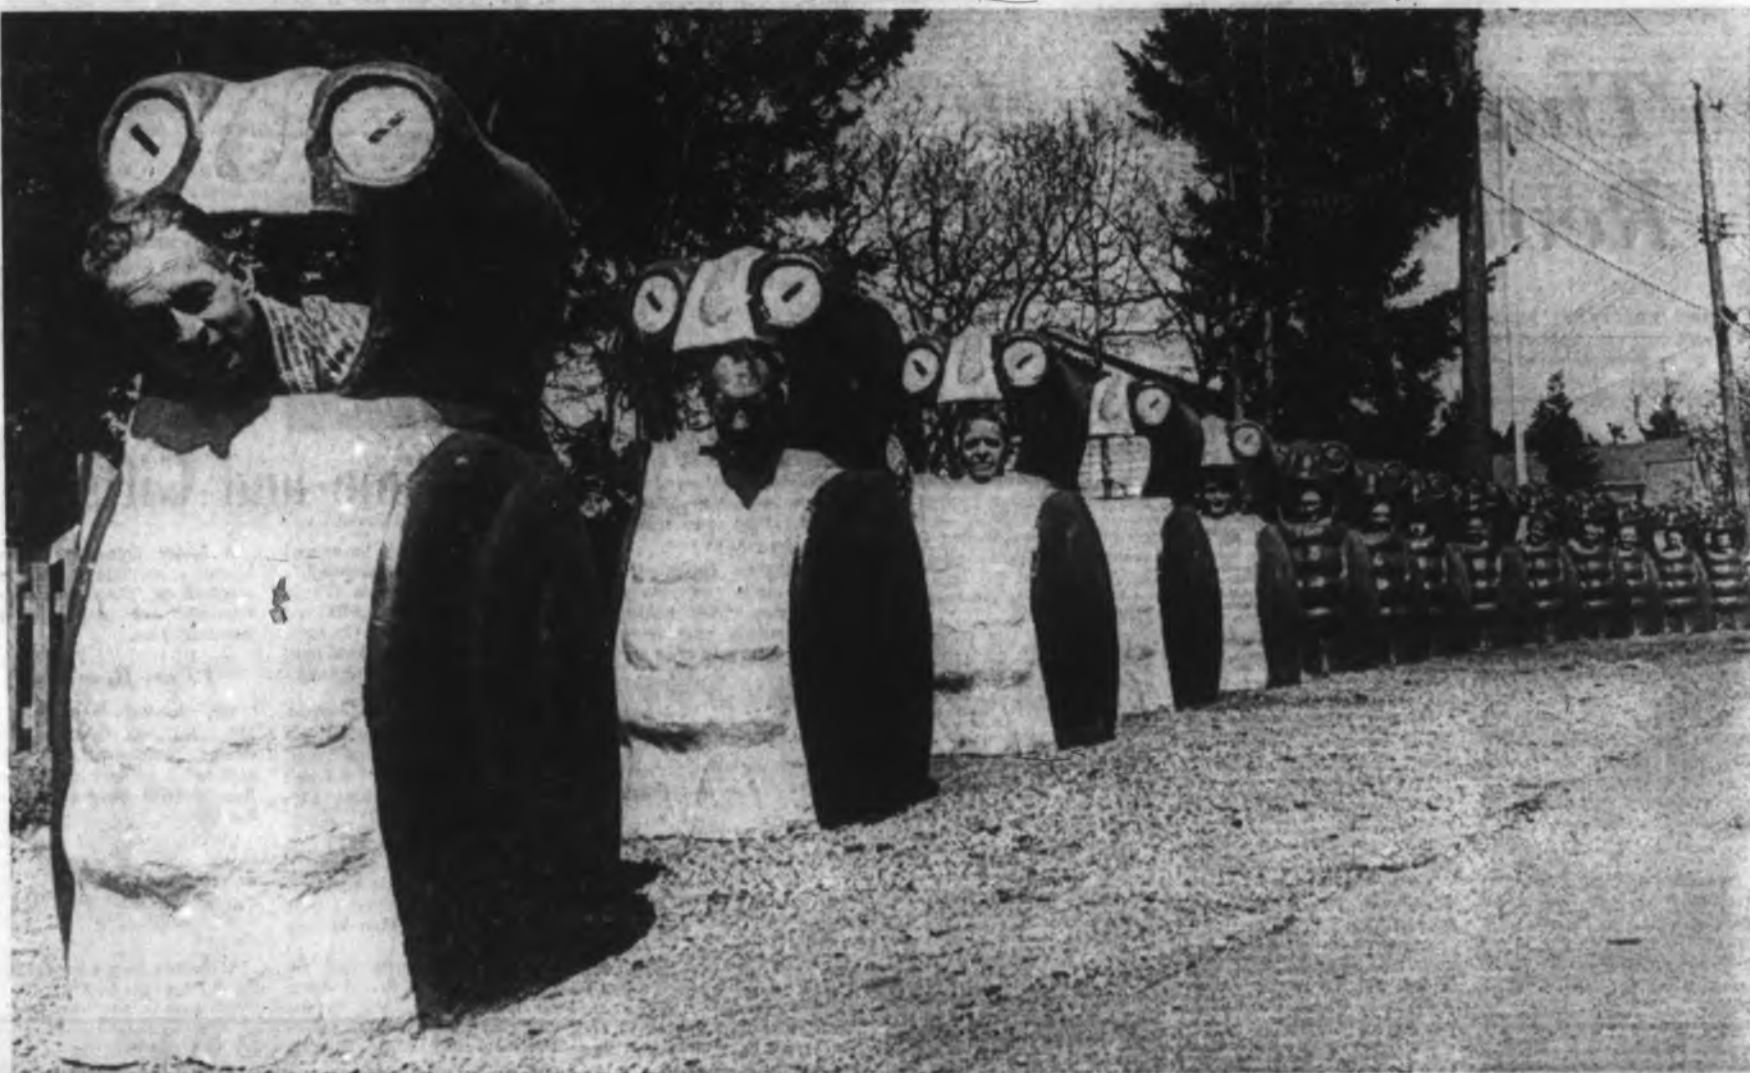

State Senator Vincent Mammi called the bill legalized "state murder." He said it would make Colorado the "abortion mecca of the world."

Love disagreed. But he said he received about 5,000 letters and telephone calls on the abortion bill, running 3-2 against it.

Riders Escape Flaming Plane

SAN JUAN, P.R. (UPI)—A Caribbean airliner carrying 51 persons skidded off the runway in flames Tuesday night after landing at Puerto Rico's Isla Verde airport on a flight from St. Thomas in the Virgin Islands.

First reports said only four persons were injured. The fire was extinguished within minutes, officials said.

Just Litter Caper

Making like a bunch of purple people eaters are these grinning garbage gobblers—but it was just a coffee-break caper by foreman Len Shaw and his staff of 13 at Langford parks branch workshop. Fibreglass waste containers have been in use for about 10 years on highways throughout B.C.—(Jim Ryan)

Hellyer Wins Battle

House Passes Unification Bill

By RON COLLISTER
Ottawa Bureau

OTTAWA — The Commons last night voted 127 to 73 after the government dropped the

gullotine to unify Canada's three armed forces in an olive-green uniform.

The uniform will be on display next month, and will be worn by

269 Beneficiaries Around World

He's Running Out Of Time and Gifts

By NANCY BROWN

He's almost as old as Canada itself, and his personal way of celebrating his and the country's birthday is by giving money away.

Abraham Gowler was born in Toronto 82 years ago, the son of a Lincolnshireman and an Irish lass.

His father's name and his grandfather's name was Abraham Gowler. His brothers were Isaac and Jacob.

Lives Alone

He has lived alone in a room in the Yates Hotel for eight years.

A religious man, he has been giving one-tenth of his income to his church since he first started working for \$2 a week as a newsboy, in gaslit Toronto.

He began his Centennial project last September. It was then that he decided that a tangible appreciation token to church ministers he had known would be his idea of a birthday present to himself.

Three Squares

The idea snowballed in his mind, and on March 29 this year, 269 people from as far away as England and Buenos Aires received gifts of \$1 to \$50.

"I've got enough money left to get myself three square meals a day," said Mr. Gowler.

Abraham Gowler with last few 'Project' bills

Little Girl Upsets Marble Price Rise

LONDON (UPI)—A nine-year-old girl, angered by a one-penny increase in the price of a bag of marbles, started a government inquiry that ended Tuesday with a price rollback and a penny refund from the marble manufacturers.

Joanna Wilkinson sent a letter to the Board of Trade last month, complaining that the increase in the price of marbles from six to seven pence a bag was unfair in view of the nationwide freeze on pay and price increases.

Douglas Jay, president of the Board of Trade and a member of the cabinet, started an investigation. The marbles manufacturer apologized and cut the price back to six pence a bag.

The company also sent Joanna a penny's worth of credit. She spent it on candy.

Superport Something Else

No Federal Bar For Coal Deal

VANCOUVER (CP)—The federal government isn't likely to block plans by Crown Mines Industries to ship coal from eastern B.C. to Japan even if shipment is partly over U.S. rails, Trade Minister Winters said Tuesday.

The company is negotiating with the C.P.R. and the U.S. Great Northern Railway on shipping prices, with Great Northern having quoted the lowest price to date.

"Naturally, we would like to see it done in a way that would best benefit Canadian employment and industry," said Mr. Winters. "But if the only reasonable way is over a U.S. line, we would have to look at it."

SUPERPORT

Part of the Japan deal is inclusion of construction of a superport at Roberts Bank, 20 miles south of Vancouver, to handle huge bulk carriers.

W. R. Prentice, C.N.I. president, said Tuesday that hopes of closing the Japan deal will vanish unless the Robert Banks port is built.

"The superport could be operating in 18 months from the time we sign a contract," Mr. Prentice said. "But the contract will fall through if the proposed port doesn't go ahead."

NO COMMENT

Mr. Winters said he would not comment on whether he favored the B.C. government's plan for a superport. He said that would be a subject for the federal transport department to deal with.

U.S. Reviewing Aid to Greece

WASHINGTON (UPI)—The United States sought Tuesday to help young King Constantine force the military-backed regime in Greece to restore constitutional government.

The state department said the large American military aid program to Greece was placed "under review" after the Friday coup in which a junta of colonels took over and installed Constantine V. Kollias as premier.

This wording usually is used when the United States seeks to warn a government losing power that its future assistance from this country may depend

upon the degree of its reversion to democratic principles.

The state department's declaration accompanied private efforts being made by U.S. Ambassador Philip H. Talbot in Athens to encourage a more moderate course by the Greek militarists.

Talbot has told the new regime that a rigid right-wing dictatorship would have an extremely adverse effect on American and most other world opinion.

State department press officer Robert McCloskey said U.S. military assistance to Greece during the year which ended last June 30 totalled \$78,800,000.

That Bookmark Real Eyecatcher

CORN FRITTERS: Bastion Theatre's Peter Manning got a mysterious parcel by mail Tuesday. Inside was a copy of the cookbook Theatre in the Kitchen.

A brief note told him to turn to Page 64, where there is a recipe for corn fritters and a quote from Rudyard Kipling which says, "Being kissed by a man who didn't wash his moustache was like eating an egg without salt."

It was the bookmark, not the recipe, that caught Mr. Manning's eye. Shipped between the pages was a cheque for \$1,000.

The money was raised by the Actors' Committee which has been selling the books. The books were donated by printer Charles Morris — and are still available.

MINISTERS OF WHAT? It's been a bad month for health ministers. First it was Health Minister Wesley Black in Royal Jubilee, and he's still running his department from there.

Now it's the turn of retired health minister Eric Martin, who is in St. Joseph's suffering from an old complaint, emphysema, that was a factor in his decision to step down last year.

Mr. Martin had been enjoying life in Palm Springs, Calif., where the climate makes life easier for him, but he returned here to go into hospital.

We suspect that Mr. Martin has become sharply aware of something that more and more residents of B.C. are learning the hard way:

That such normally excellent trappings as MSA and hospital insurance, you can't afford to have a heart

attack or any other serious illness in California.

Some Victorians have been caught for \$1,500 and up after heart attacks. Others have returned in flying ambulances to cut off the incredible dollar drain.

OTHER AIDES: Adults who spend so much time crying about the younger generation might like to mull over this story from acting postmaster D. N. Green.

Rhys Thomas, a Colonel carrier, came on a stamp- vending machine at Fort and Richmond that had been broken into.

Stamp books were scattered over the sidewalk. Rhys collected the books and went home with them to report to his father.

The parent advised the Post Office of the damaged machine, and had the stamp books ready for collection.

Small wonder the Post Office sent him a letter of appreciation.

ON CANADA: This is Canada's U.S. Goodwill Week. If you have any happy sentiments on the issue, mail or wire Expo, for that's where the action is. Provincial authorities haven't been told about it, anyway.

That such normally excellent trappings as MSA and hospital insurance, you can't afford to have a heart

committee man Walter Dodsworth will travel over the water to boost the idea of a trip here to help celebrate the centenary.

The visitors will be offered entertainment by U.S. and local bands and the U.S. Coast Guard will fly over the Dallas Road area.

The date has been set to coincide with the Swifts race and the Armed Forces Tattoo.

TOP TIPLERS: Despite Harold Wilson's Labor government the British are still the world's top champagne-bibblers.

Last year they downed 5,489,000 bottles while the U.S. only managed 4,122,000. Belgians accounted for 2,670,000 and Italians drank 2,206,000 bottles.

The question is, are the Britons drinking to celebrate, or just to forget?

IVAN THE MARVELOUS: The Red Army Chorus was a smash in Vancouver Monday and got two standing ovations.

Hugh Pickett reports he had to put on six extra tickets-sellers on the final day the box office was open. A normal day's sales run around \$1,500, but the last day of the Red Army he did \$12,000 worth of business.

The Memorial Arena here is already better than half sold for Saturday's concert.

Continued from Page 1

Hellyer Wins Battle for Unification

week's vacation tonight, then in the new uniform by July 1, change until proclamation of the return May 4 for the opening of the centennial of Confederation bill.

The question by rank structure, he said, was still under study and there would be no acceptable, he said.

RECORD SESSION
The session lasted 248 days, one day longer than the previous record session, which put through the new flag by closure in 1964.

In the line-up when the vote was taken:

101 Liberals, 12 New Democrats, eight Creditists, four Tories and two Independents voted for it.

Against it were 69 Tories and four New Democrats. Both the Liberals and the Tories gave thunderous applause to their battle-leaders as they stood to vote.

Outside the Commons, Mr. Churchill said another controversial debate had been cut off by the government's "big stick."

The government, he charged, had "restricted free speech through its autocratic attitude and because of its lack of confidence in the measure it had introduced into the Commons."

NO HOLDUP
It had destroyed the three armed forces, he said bitterly.

Mr. Churchill was asked why the Tories had allowed the vote to come earlier than it had to, and why they were now allowing the session to end.

The Tories could, if they wished, press the government into a corner by holding up interim supply, the money to run the country in May.

But they are expected to let it go through today.

LIBERALS SURPRISED
The eleventh-four attitude of the Tories surprised the Liberals.

Conservative sources said the break came when they realized they were losing badly with the public on the unification issue and a co-operative gesture was needed.

Mr. Churchill, however, said he initiated the all-party talks to end the session because the government was unable to end the "most badly-arranged session in Canadian history."

The unification of Canada's armed forces will move slowly. It will not be complete until 1973-1974.

The proclamation of the bill, still to be approved by the Senate, might take six months, Mr. Hellyer said. First, the defence staff had to work out the new regulations.

When he was asked, could the public see the new uniforms?

The "user-trials" involving about 400 men would begin next month. This group did not include the guard at Expo.

In this, Mr. Hellyer has achieved what was supposed to be his objective, to have the forces — if only in a token way

Designation of rank is based of choice in what the defence staff recommends," Mr. Hellyer said.

Would the choice of a change in rank be voluntary?

"There will be some element of choice," Mr. Hellyer said.

If the Commons succeeds in its plan to break tonight for a week's vacation, allowing MPs to attend the opening of Expo Thursday, it would come back next Wednesday to prorogue, then the new session would start Thursday.

There are still some doubts about the exact timetable. But there is no doubt that Paul Hellyer today is a very happy man.

He put his job on the block over the acceptance of unification.

And he pulled it off.

General's Trip Scored

From Page 1

eral told the annual meeting of The Associated Press in New York Monday. "We will have to grind him down."

Westmoreland said war critics in the United States are encouraging the Communists to think they can "win politically."

He said American troops in Vietnam are "dismayed, as I am, by recent unparliamentary acts here at home."

"I think the general has misread the real reason for resistance on the other side," said McGovern, who opened the discussion with a speech demanding an end to all bombing in Vietnam and a renewed quest for peace.

CRITICS BLAMED
"The blistering military solutions of the war hawks have proved to be waving. Now, in their frustration, the hawks are trying to blame the failure of their policy on their critics."

"I do not blame Gen. Westmoreland for his speech in New York because he is obviously doing both in Vietnam and in New York exactly what he is told to do by his commander-in-chief, the president."

Fulbright said he was not so sure. He said President Johnson may have come around to Westmoreland's view on the conduct of the war.

Senator Speasard L. Holland (Dem. Fla.) defended the Westmoreland mission home.

"He is in a much better position to know what he's talking about when he tells us that the trouble in Vietnam is being accentuated by the criticism here at home than we are," Holland said.

Mr. Gowder's wife died in 1945. He has told no one except recipients about his centennial project until now. Beneficiaries have passed on the story.

"I don't want to say how much I've given to my friends," said Mr. Gowder, "or how much I shall be giving to the organizations I hold dear."

A poem which accompanies the gifts reads in part: "So this is my 'Project.' The deed now is done — And I can bow out When life's race is run."

New Home Recipe Reducing Plan
It's simple how quickly one may lose pounds of unwanted fat right in your own home. Make this home recipe yourself. It's easy, no trouble at all and costs little. Just go to your drug store and ask for four ounces of Naran Concentrate. Pour this into a pint bottle and add enough grapefruit juice to fill the bottle. Take two tablespoons full a day as needed and follow the Naran Plan.

If your first purchase does not show you a simple easy way to lose bulky fat and help regain slender more graceful curves; if reducible pounds and inches of excess fat don't disappear from neck, chin, arms, abdomen, hips, calves and ankles just return the empty bottle for your money back. Follow this easy way and you'll be amazed at how quickly this plan and help bring back alluring curves and graceful slenderness. Note how quickly blast disappears — how much better you feel. More alive, youthful appearing and active.

Many Causes for Itching

By JOSEPH MOLNER, MD

Dear Dr. Molner: Please discuss vaginal itching and what can be done to relieve this torture. It seems to be a common problem among women but not much is said about it. Is it more prevalent among women who have had hysterectomies? I have tried all sorts of creams, lotions, etc., without avail. ... MRS. R.P.

Yes, this is a common problem, but there is no single answer for it. Causes vary. Ergo, treatment must vary. (Hysterectomy has no bearing on it.)

The commonest cause is trichomonas infection, caused by a tiny and prevalent parasite. This usually causes a heavy type of discharge.

Yeasts and molds also can cause a discharge and itching, but in this case a thin type of discharge is more likely.

Infections of the cervix (cervicitis) may be at the root

Your Good Health

of the trouble. Diabetes must be checked and ruled out. Indeed, vaginal irritation is a symptom which in quite a few cases leads to discovery of hitherto unsuspected diabetes.

Frequent douching sometimes is found to be the cause which is one of the reasons why routine douching is not advisable. The tissues are tender and readily irritated. Certain soaps can irritate some individuals so changing to a milder one should be considered.

Age sometimes is a factor. Tissue changes at or after menopause sometimes are involved, and in such a case

taking hormones, either by mouth or as a local application, frequently helps. Your doctor, of course, must determine the type and dosage.

A remote possibility is sensitivity to certain fabrics in undergarments or girdle—a form of allergy.

Admittedly this problem can be stubborn and difficult to treat, and success depends to a very great extent upon the accuracy with which the basic cause can be determined. As a matter of fact, over-medication, particularly with creams and lotions, can be irritating and make the condition even worse.

One thing to be kept constantly in mind is that with the trichomonas and similar infections, a husband should be treated along with the wife. The woman may clear up the infection, but since it can be harbored by men (but without the irritation) she may find that she is no sooner cured than the itching begins again.

The Weather

APRIL 26, 1967

Mostly cloudy, few showers. Little change in temperature. Winds light. Tuesday's precipitation .01 inch; sunshine two hours; 42 minutes; recorded high and low at Victoria 51 and 44. Today's forecast high and low 52 and 42. Today's sunrise 5:04 a.m.; sunset 7:20 p.m.; moonrise 11:01 p.m.; moonset 6:08 a.m.

East Coast of Vancouver Island—Mainly cloudy, scattered showers. Little change in temperature. Winds light. Tuesday's precipitation .15 inch; recorded high and low 50 and 37. Today's forecast high and low 52 and 35.

West Coast of Vancouver Island—Cloudy, few showers. Little change in temperature. Winds light, occasionally southeasterly 15. Forecast high and low at Tofino 45 and 40.

North Coast—Sunny, cloudy intervals, scattered showers. Little

change in temperature. Light winds. Thursday outlook, a few clouds, little change in temperature.

Five-day outlook — Temperatures through Saturday averaging near normal, highs mostly 55 to 65, lows 35 to 45. Rainfall more than normal.

Johnson, de Gaulle Merely Meet

No Heart-to-Heart Talk at Top

BONN (UPI) — French President de Gaulle "exchanged pleasantries" with President Johnson Tuesday but bypassed an opportunity for a heart-to-heart talk with him.

Instead, the French leader closed himself in a private anteroom for a 50-minute chat with Chancellor Kiesinger of West Germany while Johnson, one flight up at a diplomatic reception, spent his time talking with other dignitaries.

Before the reception, Johnson

met with Prime Ministers Wilson of Britain and Moro of Italy.

Afterwards, he told newsmen, "these are just courtesy calls that some of those who are here for the funeral are paying before they return. . . . We talked about the occasion today, the contribution Konrad Adenauer made to European unity, to freedom in the world, to the great reconstruction of Germany and all Europe."

He said they "were not in-depth discussions."

heads of state to see if they would take advantage of their meeting at the funeral of former German Chancellor Adenauer to try to improve their nations' chilly relations.

STARED AHEAD

During the state ceremony in West Germany's Bundestag (parliament) West German President Heinrich Lübke sat between the two presidents. But de Gaulle and Johnson sat next to each other at the religious funeral service in Cologne.

Most of the time, they stared straight ahead.

They met with a handshake in Cologne Cathedral. But, the chance for a serious discussion of the problems between their nations did not arise until the evening reception by the West German government at the Guerzenick, a banquet hall built in the Middle Ages and restored after The Second World War.

'ALL WELCOME'

Reports of an informal invitation from Johnson for de Gaulle to visit Washington were played down by George Christian, presidential press secretary.

"They exchanged pleasant

rics," said Christian. "All leaders are welcome to visit the United States. We don't have anything on any announcements (about a de Gaulle visit), or any dates. I know nothing about anything specific."

(In Paris, presidential palace sources said Johnson and de Gaulle "evoked" the possibility of another meeting, but stressed that no time or place was specified.)

At the reception, French Foreign Minister Couve de Murville chatted briefly with Johnson, then excused himself to go downstairs and sit in on the final 10 minutes of the de Gaulle-Kiesinger meeting.

QUICK SMILE

The encounter between Johnson and de Gaulle was the first since the funeral of John F. Kennedy in November, 1963.

At a luncheon Tuesday at Lübke's official home, photographers coaxed them into a three-way handshake with Lübke. Johnson smiled broadly. For an instant, a quick smile crossed de Gaulle's face. They chatted again, but sat at separate tables.

Johnson, who arrived Sunday night as one of the first foreign dignitaries here, will meet with Kiesinger Wednesday to discuss the planned treaty to ban the spread of nuclear weapons, the Kennedy Round of tariff-cutting talks, disarmament, the Atlantic alliance and the strength of allied forces posted in Germany. Johnson planned to return to Washington early Wednesday afternoon.

Germany joins French, U.S. hands

Canada Proposes Move by UN In South-West Africa Dilemma

UNITED NATIONS (CP) —

Canada urged Tuesday that a special United Nations representative be sent to South-West Africa as the first step in an effort to come to terms with the South African government over the future of the disputed territory.

The United Nations' view, as

a result of a General Assembly resolution of last October, is that South Africa no longer has the right to rule South-West Africa. But South Africa remains, in fact, the ruler of South-West Africa and is reorganizing the territory on a basis of separation of the Negro majority and white-minority populations.

"It is only common sense to recognize" that there is a South African regime in the territory, Canadian Ambassador George Ignatieff said.

Menon

Election Setbacks Strike Menon Out?

NEW DELHI (AP) — Two election losses in as many months may finally have ended the long, controversial political career of 70-year-old V. K. Krishna-Menon, once India's leading apostle of anti-Americanism.

"A sad end to a brilliant career," said one newspaper of the haughty, sharp-tongued man who represented India in the United Nations for 19 years and was the country's defence minister for five.

Menon, running as an independent with leftist and Communist support in a byelection in Bombay, lost by 150,000 votes Monday to Tara Govind

Sapre, Congress party candidate making her first try for office.

Congress candidate S. G. Barve, Mrs. Sapre's brother, defeated Menon for the seat in February by 13,000 votes. Barve died of a heart attack before he was sworn in.

Menon was a close adviser to the late Prime Minister Jawaharlal Nehru.

Nehru named Menon defence minister in 1957 but was forced to remove him after India's troops were routed by the Chinese in the autumn of 1962. Menon's critics said the Indian forces had been poorly prepared for the fighting.

Four Planes Lost

Americans Bomb Key Cities Again

SAIGON (AP) — U.S. jet squadrons, absorbing some losses, built up the tempo of the air war against North Vietnam Tuesday with their second raid inside Hanoi and their closest strike ever to Hanoi — an attack on the Gia Lam railway repair yards.

Communist sources claimed 35 American planes were downed, two over China's frontier territory and 24 over North Vietnam, in the two days of intensified action opened with the initial strikes Monday at two North Vietnamese MIG fighter-plane bases.

The U.S. command announced the loss of four planes over North Vietnam — three Monday and one Tuesday.

FRONTIER NOT CROSSED

It denied a story, broadcast from Peking, that two F-4B Phantoms invaded China's frontier province of Kwangsi "for the purpose of creating a war provocation" and were annihilated by Chinese fighter planes. American authorities ordinarily have no comment on Communist reports about the war. Peking's may have gotten special attention because of concern expressed in some quarters of the United States about the bombing of the bases of the Soviet-designed MIG jets, immune through the preceding months of conflict.

This theory is that homeless North Vietnamese fighters may settle down on jet fields across the northern frontier in China and thereby perhaps edge China into a more active role in Hanoi's ally.

TARGETS NAMED

Prime targets Tuesday were the Gia Lam yards, only 24 miles from Hanoi's heart; an electrical transformer facility seven miles north of Hanoi, and

U.S. Goods Still Reach Viet Cong

WASHINGTON (UPI) — A U.S. foreign aid administrator told Congress Tuesday it was impossible to prevent some shipments of American medical supplies and other goods from reaching the enemy in South Vietnam.

Rutherford M. Poole, President Johnson's nominee for the No. 2 job in the Agency for International Development (AID), told a Senate subcommittee that despite tighter controls, the Viet Cong could receive such materials from Vietnamese war profiteers.

Canada's Outmoded Laws Need Modernizing

Old deeds and mortgages written in Spenserian script with quill pens? You'd expect it in Dickens' time — but it's still happening today in one of Canada's busiest, land-registry offices. Do you realize how much money document searches add to the price of your home... just how obsolete our divorce laws really are... why we still have laws that encourage legalised fraud? In May Reader's Digest a law professor suggests ways to rid our legal system of these antiquated methods. This article will open your eyes. Read it now in the May Reader's Digest.

Four different ways to make Spring Cleaning easier. Each at a special low price! Buy any three Ajax products and we'll also give you a dollar back. It's the next best thing to having your Spring Cleaning done free!

How to get your crisp ONE DOLLAR bill:

Just strip off the labels from any three different Ajax products. Send them along with your name and address to AJAX DOLLAR OFFER, Box #2161, Toronto, Ontario. We'll send you a crisp one dollar bill.

Offer expires May 31/67. Offer limited to Canadian Residents only.

Greek Tragedy

KING CONSTANTINE'S apparent decision to play along with the military leaders who seized power in Greece last Friday should not yet be taken as proof of his approval of the army coup.

It may be that the young king has been forced to co-operate with the junta in order to save the Greek monarchy. Certainly, though his role in the takeover is not entirely clear at the moment, there is nothing to indicate that he played an active part in it or even knew it was going to happen.

The Greek throne has ever been a shaky structure at odds more often than not with successive leaders of Greek governments. And Constantine's rule has been no exception.

Almost from the time he became king in March, 1964, bad blood existed between him and former Prime Minister Papandreu, leader of the leftist Centre Union party and possibly the single strongest political personality in the country.

Last summer the king and Mr. Papandreu had a head-on clash brought about by the politician's desire to purge right-wing elements in the army. The king objected and Papandreu resigned, throwing the country into political confusion which has continued to the present day. Two further governments failed in quick succession and riots and fights in Parliament became commonplace.

These recent happenings added to various other events dating as far back as the civil war of 1946 point up the now traditional insecurity of the Greek royal house.

If, as it now appears, Constantine is ready to throw his lot in with the military in a last desperate gamble to preserve his own position, he may also find that he is making a major move toward its eventual destruction.

There has never been any evidence that the army is either a popular force in Greece or is strong enough within itself to maintain the position it has now occupied.

Though it may be hoped that the coup might result in some lasting solution being found to the problems which have plagued the Greek political scene for so long, it might just as easily bring even greater chaos. It may also bring about the fall of the Greek monarchy.

Picturesque Visitor

VICTORIA PLAYS host today and Thursday to a visitor of unusual and picturesque character, the emperor of an ancient African state, His Majesty Haile Selassie of Ethiopia. It will be but a brief sojourn here, part of his travels in Canada in connection with his tribute to the national centenary celebrations.

There are rulers whose names come strangely to Canadian ears but Emperor Selassie's is not one of them. Both he and his country are familiar to many Canadians, and the emperor has made a noticeable impact on the world scene.

His personal and dramatic appeal to the League of Nations in 1936 following the Italian invasion that forced him to flee, is still remembered as a preliminary of the Second World War. The appeal wrongly went unheeded, but five years later British Commonwealth troops defeated the Italian forces occupying Ethiopia and Haile Selassie returned to the throne he first ascended in 1930.

There is also the genealogical tree of Ethiopian rulers to excite the imagination and capture interest. The gene of royalty are far-fung and intermingled in many national realms, and the legendary pedigree that traces the emperor's descent from Solomon and the Queen of Sheba is an additional and intriguing personal attribute.

The emperor's engagements comprise a busy official schedule, but his call at the City Hall and tour of Centennial Square will enable the downtown area at least to glimpse this historic African monarch.

In any case His Majesty Haile Selassie is not the least of royal visitors which this city is pleased and honored to welcome. We hope his few hours in our midst will be to him of equal interest and pleasure.

Valuable Project

ALDERMAN FRAMPTON was quite correct when he said that if the city sets up an archival history of Victoria this will be a continuing program inviting an annual cost. So it will. There would be no sense in preserving valuable memorabilia if not continuously cared for.

And added to "Civic archives cannot stop when a mass of miscellaneous documents of the past has been sorted out and catalogued; history goes on and is made every day." The alderman himself was in fact contributing to the civic record when he spoke.

There would have been no point, either, of engaging as council did someone to bring order out of the chaos represented by a pile of documents, books and other assorted material, if having been indexed they were to lie fallow for many more years in the City Hall storeroom where to date they have been gathering dust.

Mayor Stephen was even more correct, however, when he pointed out that Victoria was the oldest city in the province and if its records were destroyed—or impaired by neglect—this would be a reprehensible happening. And at the moment the present board of aldermen bears the responsibility.

There is every justification for a civic archive—a compilation of the documents that recite civic history, pictorial exhibits, artifacts, tape records, and all other related material.

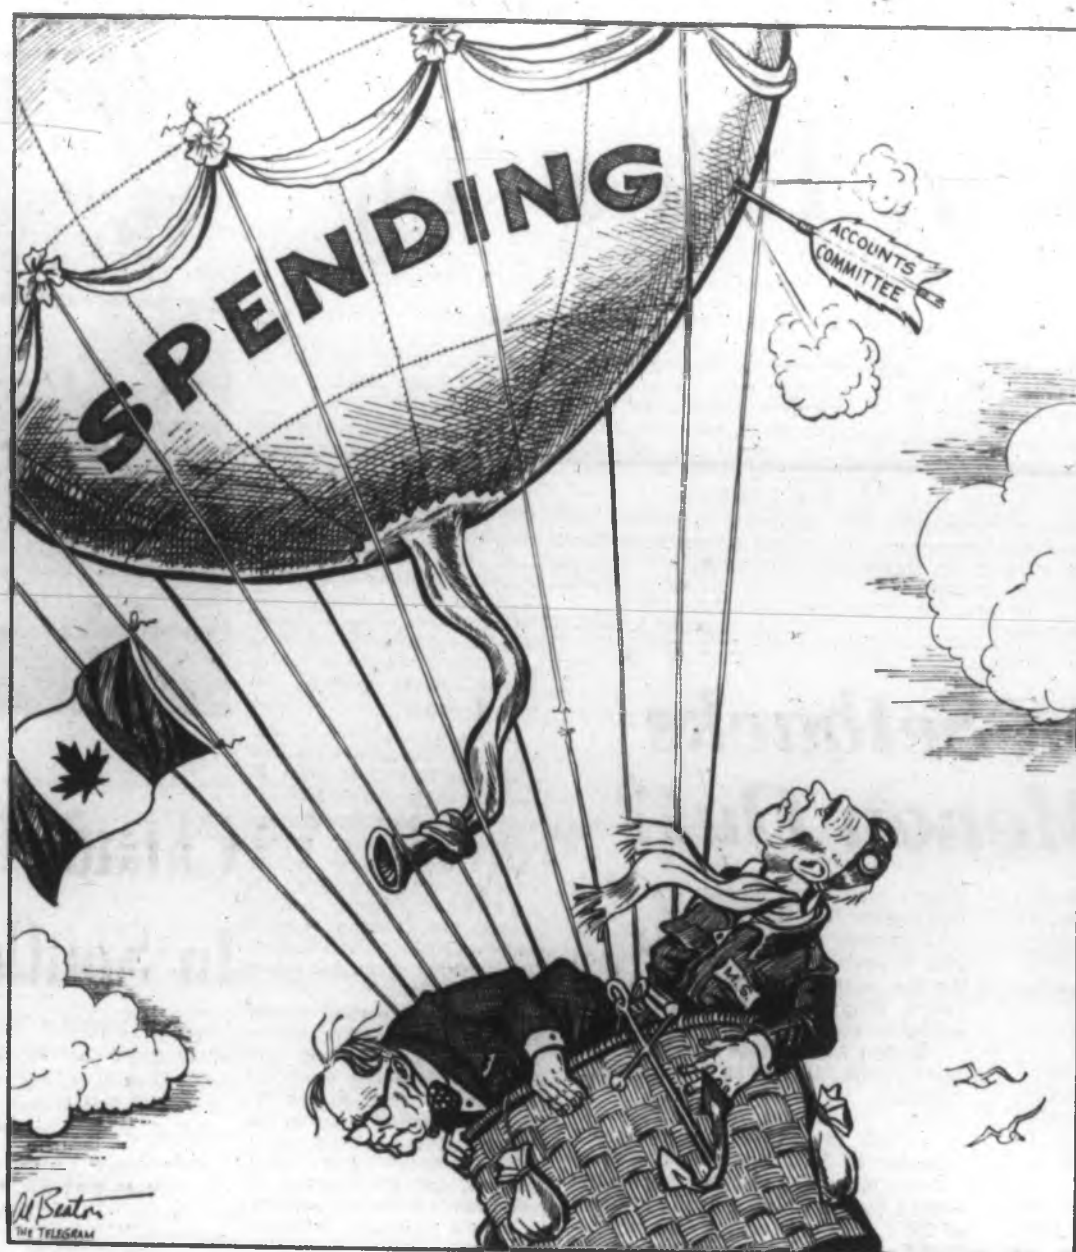

And the suggestion that these be housed in Craigdarroch Castle is an excellent one; nor should the cost of upkeep and staff be beyond the reach of the civic purse. The project is important and needs to be carried out.

Ottawa Offbeat

Unlikely Event

MR. CHURCHILL: . . . The Minister of National Defence has been going on his own, unchecked, untrammelled, and it is now time to rein him in and teach him some of the facts of life. The Secretary of State for External Affairs must give to this house, exactly and without his orotund phrases, a clear picture of what is Canada's external policy for the future.

Mr. Nesbitt: That'll be the day.

S-S-S-S . . .

American Crisis

Opportunity to Change History

By ARNOLD TOYNBEE
(Last of Three Articles)

AMERICA stands at a parting of the ways, and her choice between the alternatives that confront her will be momentous not only for America herself, but for the whole human race.

In the dissident minority that is struggling to win America's soul, there are pessimists who foresee the so-called "Free World" being transformed, step by step, into an American Empire. The power-bases of the Roman Empire was an alliance between the Roman "establishment" armed with invincible Roman military manpower, and the rich minority in the foreign countries that had been conquered by Roman arms.

In Second World War terms, these neo-Roman accomplices of the Roman "establishment" were Quilings. They collaborated with the Roman nobility and the Roman business corporations in exploiting the peoples of the Mediterranean basin. Their victims were the mass of the subject population and also the mass of the Roman people, whose young men were conscripted to establish and maintain this domination of the rich over the poor.

American pessimists today foresee a similar coalition between the administration at Washington—White House, Pentagon, CIA, FBI—the great American business corporations, and a privileged minority in those tracts of Asia, Africa, and Latin America over which the American corporations have spread, or will spread, their tentacles. It is conceded that, in these regions, outside the United States, that will have become virtual provinces of an American Empire, the American corporations are likely to be paternalistically lenient to their non-American employees, but they will be favoring the minority of the subject population at the majority's expense. They will, in fact, be slightly broadening the base of the "establishment" by taking some groups of non-American but American-trained skilled workers into partnership.

For the pessimists, the question is, not whether this American Empire will be established, but how far it will extend. How many additional Vietnam could the United States take on, how many millions of American young men could the administration draft into the armed forces, without precipitating an economic and political crisis on the home front? And what would be the line along which the American Empire's frontier would be drawn?

The Roman "establishment" found that it was beyond its strength to conquer and incorporate in the Empire the Germans, the Persians and the Arabs, and in the course of several centuries, these unbridled neighbors became dynamic.

They launched counter-offensives under which the Roman Empire eventually collapsed. If an American Empire is established, is its history likely to run the same course?

The American Empire is already a reality in the Caribbean and in large parts of Continental Latin America. Cuba is an exception, though a conspicuous one. It is possible to imagine the American empire being extended, at the price of a costly military effort, right across southern Asia from Vietnam westwards. In the opposite direction, it is already firmly established in Formosa, Okinawa and South Korea. But

it is impossible to imagine it engulfing either Russia or China, and it is difficult to imagine that either Japan or Europe would be down submissively under American control.

So the American Empire, like the Roman Empire, would fall far short of becoming world-wide, and, sooner or later, it, too, might collapse under counter-attacks from beyond its borders.

This nightmare is a possibility, but there is nothing inevitable about it. History may take a most constructive and more promising alternative course. The United States and the Soviet Union may both recognize that their common national interests are more important for both powers than the difference in their ideological labels. They may advance from coexistence to partnership; a partnership between the two great super-powers would be

Nuclear Bomb Progress

THE Chinese have never given up trying to build a better firecracker.

Today, 1,287 years after they invented gunpowder in 700 A.D., the Chinese may be on the verge of their biggest-ever explosion.

Despite the strains of the cultural revolution and power struggle, there is every indication that Red China's nuclear and rocket development programs are proceeding more of late.

By the best estimates available, the Peking regime will be capable sometime this year of delivering, by missile, a nuclear warhead as far as Nationalist China (Taiwan).

The nuclear warhead could be a hydrogen device. That means that before the end of 1967 such places as Japan, South Korea, the Soviet Union, India, Laos, Thailand, Burma, Nepal, Pakistan and Afghanistan also will be within range of Red Chinese nuclear missiles.

The analysis of Red China's fifth nuclear test on Dec. 27, 1966, by the U.S. Atomic Energy Commission indicates a definite conclusion was withheld in the report that China is well down the path toward full hydrogen bomb capability.

Red China's rocket and missile program also is believed to be well advanced. This means Chairman Mao Tse-tung will have the ammunition to climax his cultural revolution with a tremendous bang if he so chooses.

Red China has gone through virtually every step necessary to reach full thermonuclear status.

Step No. 1 in building a hydrogen bomb is to put together a fission bomb, of the type that was dropped on Hiroshima.

In this type of bomb, atoms of Uranium 235 are split by neutron bombardment. The energy released produces the explosion. Red China has done this three times.

The heat resulting in a fission explosion of heavy atoms can be used to link lightweight atoms, mainly two isotopes of hydrogen, to form helium.

is overwhelmingly preponderant in power. In America the great debate has already started — it has been generated by the war in Vietnam. The world outside the Soviet Union is less well informed about what is going on inside the Russian frontiers, but we may guess that if the debate has not already started there, it is already on its way.

So we may hope that President Johnson will yet live to achieve the domestic objective he has at heart, and that is the mandate that has been given to him by the American people. This will require a radical change in the outlook of both president and people. They will have to recognize that the body of men who make up the political reality, if President Johnson's America can see the truth, and act on it, she may find a congenial working partner in Mr. Kossygin's Russia.

(OFPA-Copy Rights)

China and the Final Firecracker

By EDWARD NEILAN from Hong Kong

This fusion also releases energy. Red China has detonated bombs in this way twice. Intelligence reports indicate, however, that the Chinese explosion in this relatively advanced method were rather crude.

There are several methods of refinement which the Chinese could use to make an advanced hydrogen bomb.

The first two Red Chinese blasts, in October, 1964, and May, 1965, and the fourth last October, were ordinary fission bombs using U-235. They were about the size of the Hiroshima bomb or about the same as 20,000 tons of TNT.

The third explosion, in May, 1966, was much larger. It was about 200 kilotons and contained fission materials, including Lithium 6. It indicated to free world scientists that the Chinese will have some way to go before they could make a sophisticated Lithium 7 device. The use of Lithium 7 constitutes a major step in developing the type of hydrogen bomb that could be delivered by a rocket.

The latest test in December was the biggest so far, estimated at 300 kilotons. To put together such a large explosion by fission alone would require at least 120 pounds of precious U-235, according to experts. It is unlikely that the Chinese would have used this very uneconomical procedure.

Significantly, the U.S. Atomic Energy Commission reported

that the last bomb "included thermonuclear material" and also "contained U-238" as fissionable material—the key to high yield and low weight.

It is also believed significant that whereas the AEC openly talked about the fusion contents of the more crude Lithium 6 bomb set off in May of last year, it gave no such details on the latest bomb. The AEC said such data on the latest blast was "design information" and unavailable to the public at the present time.

Evidence supports the speculation that the latest Chinese bomb was in fact a Lithium 7 or advanced bomb.

The AEC is keeping mum on whether the December detonation actually was a full-fledged hydrogen bomb. As long as the AEC declines to expand on the "fissionable" statement, only the Chinese, some Russians and a few Westerners know for sure if Red China has achieved full thermonuclear status.

The AEC knows, of course, but at this point it isn't telling. Another scrap of evidence that Red China has moved much closer to hydrogen bomb capability—if she has not already achieved it—is the reaction to the Chinese tests on the part of the Japanese.

The Japanese have naturally looked with disfavor on all of Red China's nuclear tests.

But it was the fourth blast in October of last year that really

Today in History

By The Canadian Press

Second Battalion Volunteer Militia Rifles of Canada was formed 107 years ago today—in 1860—from six independent militia units. Today, as the Queen's Own Rifles of Canada, the unit is the oldest regiment in the regular Canadian army.

It was first in action in the Fenian Raid of 1866 at Ridgeway, Ont., and fought in the Boer War as well as both world wars. Its militia battalion is still based in Toronto.

1813—The first American

Ottawa Offbeat

Worth the Practice

By RICHARD JACKSON, Colonist Ottawa Bureau

DIG that old Sly Boots, Prime Minister Pearson. Getting to be a real Foxxy Photographic Grandpa.

And since most politicians like show-biz people, seem to figure that almost any publicity is good publicity on the basis that even bad publicity is better than no publicity—the art of getting your name and picture in the paper is well worth the practicing.

There was the time when the prime minister, in his external affairs days as high commissioner to London, ambassador to Washington and departmental under-secretary, personally unconcerned about the sweet political uses of publicity, likely didn't give the photographers any more of the time of day than he absolutely had to officially.

In his later days, first as external affairs minister and then as Liberal Opposition leader, it began to come through just what a smile on Page One might do for the aspiring politician.

But it wasn't really until he became prime minister and wisely listened to the counsel of his press secretaries and special advisers recruited from the Toronto advertising world that he began to sit up and pay warmly beaming attention when the photographers aimed his way.

Now there is nobody in business on Parliament Hill—not even the Chief, that old master of the art of looking a news lens in the eye—who can touch his studied but casual talent for landing news-worthily on the front page.

A lot of news shots are stuck routinely on the PM posing with this visiting VIP or that touring student group. And that's no trick. Easy. Automatic.

So, his sheer genius for getting strategically in the camera's eye doesn't shine through until you catch him when the competition's in toughest.

Like at the Commonwealth Conference last fall in London. The annual report of the external affairs department tells the story—in a full-page picture.

There is the host, British Prime Minister Harold Wilson. But who notices him standing unobtrusively in a rumpled suit, fiddling with his hands, among the 20 other heads-of-Commonwealth governments?

And there is Australian Prime Minister Harold Holt—half hidden by Malaysia's Tunku Abdul Rahman.

And New Zealand Prime Minister J. M. H. Hobbs? With his back to the camera, of all poses in an official photograph concealed by the star of the picture, Our Man from Canada.

Where's the PM? Out front and centre, in striped pants, hands casually in pockets, obviously cracking funnies with

Malawi's President Dr. H. K. Banda, who's laughing it up and focussing all the attention on L. B. P.

When, photographically, you can upstage 19 other heads of government, including that black-headed newsmaker, His Beatitude Archbishop Makarios of Cyprus—well, man, that's camera class.

It has to make him the most polished performer in the possession of politics most of whose accomplished practitioners have made a science of getting their picture in the paper.

It's one of the antic arts of the parliamentary scene.

There is one well-known Hill figure—ah, come on, guess who you can spot at the right end of the line in every group shot from which he handsomely beams out.

That way, his name, in the "left to right" lineup of the caption, gets read first.

Neat, huh?

And there's another political personality you'll likely be seeing a whole lot more of who's a bit on the sawed-off side—and cannyly cancels out this photographic handicap with his mastery of the technique of what the camera trade knows as "the tip-toe pose."

Makes him larger—and presumably more physically impressive—than real life.

There's the very familiar Commons face who has perfected the artful gimcrickery of coming out as the focus of attention in any group news photo.

With an exquisite sense of timing, he leans out of line, steps a bit—but careful, not TOO far—back or to the side of any group, and shoots a quick, kidding question at the others. So, when the camera clicks, they're all looking at you-know-who.

Cagey? Making Page One, dear Taxpayer, is one of the high arts of Politics.

And the prime minister isn't prime minister because he didn't become High Priest of the Camera Club.

Vietnam

Puzzles Of War

By PHILIP DEANE

HISTORIANS will probably conclude that the Communists made as many strategic mistakes as the Americans in the war. Fighting, yet, for they are reasons of face, prestige and other ephemeral concerns of states, neither side could help itself.

Ambassador Cabot Lodge, analyzing the Vietnamese conflict over which he has presided for years, said that his country had been winning the war against regular organized Communist units but had made no appreciable progress against what he called the "clandestine enemy" the South Vietnamese who look like a farmer by day and turn into a guerrilla by night when he becomes the country's real government.

Why then did Ho Chi Minh send in large North Vietnamese units to pit against crushingly superior American firepower? If North Vietnam had carefully stopped short of direct intervention, it might never have been bombed by the U.S. and it could, therefore, have had the resources and the stamina to continue supplying South Vietnamese Communist partisans indefinitely in their highly successful and invulnerable operations.

But there are issues of pride and morale that qualify the purely quantitative considerations of strategy. North Vietnamese rulers see themselves as the liberators of the whole country from colonial rule; they also see the Americans as the direct successors of French colonialism. North Vietnamese rulers feel directly involved and there is a very short step from feeling to becoming involved.

They probably could not have refrained from firing at U.S. ships off the coast of North Vietnam, thus triggering the first U.S. air raid on the North.

The North's leaders must have known the U.S. Air Force was itching to start bombing; a little circumsppection on Hanoi's part could have denied the Americans the pretext or cause they needed. But if you are a Vietnamese who has fought tall, round-eyed foreigners all your adult life, you want to prove that you are as good as they; you do not want to be circumspected, you want to be aggressive.

Then, the Communists have yet to prove that they can sustain a prolonged war with only partisan, terrorist activity. Vastly successful and invulnerable though they are, terrorists lose heart eventually if they do not see proof of massive outside support.

North Vietnam's leaders probably felt they had to send in regulars to preserve the morale of the South Vietnamese Communist guerrillas—to keep their political allegiance also and keep them from acting independently of the North's wishes. And so the war grows hotter.

Teeny-Boppers Came for the Show

By STUART LOORY
From Cologne

While the Adenauer funeral service went on, the bookies outside stayed open, the German teeny-boppers gathered, and the crowd was in a holiday spirit as the body was moved down the street in the Rhine River.

When Konrad Adenauer assumed the chancellorship of a war-torn West Germany in 1949, most of these Rhineland teeny-boppers had not yet been born.

Now, Tuesday afternoon, here they were surrounding the massive, root-covered 13th century Gothic cathedral and

watching the nation pay its last respects to the old man.

They were watching, not participating. Boys and girls alike, their hair was long. The girls wore their skirts short and they were clear-faced and colorful. The boys were dressed in checked, bell-bottom, slacks and form-fitting jackets.

Some climbed trees at the side of the cathedral to see the spectacle unfold. A few even balanced themselves on a wire fence, grasping a flagpole for support and threatening to pull it over near the line of march.

The next war, the word sent a chill through one's bones.

And all the panoply of the prelates in their purple and

white robes, the flowers banded in wreaths at the cathedral entrance and mounted on black military trucks. The casket borne away under a huge yellow, red and black flag, the muffled drums of the military band, the penant draped lightpoles — could not erase the feeling.

If the funeral procession was the occasion for some Germans to think politics and for others to witness an awesome spectacle, it was no occasion at all for still others.

When reporters came down from their balcony perch in the Dom Hotel, two pretty girls were handing out samples of the famous 4711 toilet water made here. The makers of eau de cologne take their publicity where they can get it.

Corruption Rampant in South Vietnam

Smuggled Arms For Viet Cong Triggers Crisis

By ROBERT S. ELEGANT, from Hong Kong

A gigantic pipeline through Cambodia supplying the Viet Cong with arms, ammunition, food and medicine — operated with the co-operation of senior Cambodian officials — appears to be blowing up into a major political crisis in the Cambodian kingdom.

Overt events of the past few days, combined with painstaking analyses by western intelligence specialists, offer a picture of intrigue and smuggling of vast quantities of contraband which would do credit to a high-frown suspense thriller.

But the specialists make a most convincing case of their reconstruction of the manner in which the Viet Cong disidents in South Vietnam and Cambodian rebel units have been supplied through Cambodia.

Intelligence sources have evidence that small and medium arms for 50,000 troops have entered Cambodia in the past two and a half years and have been know-

By PETER ARNETT
from Saigon

Illicit profits of political and military power in South Vietnam are measured in millions of dollars. Corruption is a drag on the war effort.

One major-general, Nguyen

Deu Thang, the forthright, hard-driving minister for revolutionary development, puts the problem this way:

"Unfortunately, a great portion of government funds has been stolen. Many officials have poured government funds into their own pockets, constructed their houses and bought their cars with it. If corruption continues to this extent, I strongly believe that a real bloody revolution is inevitable."

Thang's voice is still an exception in an unstable land where a deluge of American dollar aid for thousands of projects scattered across the country places embezzlement and bribery almost in the class of a sport for the unscrupulous.

Thang warns Vietnam's 43 provinces continuously, trying to prevent underlings from pocketing his ministry's projects. Thang says he has resisted temptation, but what of Vietnam's other leaders who handle millions of dollars?

Many are tainted by corruption, if not personally then by association, by permitting of-

icials who are manifestly corrupt to remain in key positions.

Lt. Gen. Nguyen Khanh, the former premier who quit the country in 1965 to become a roving ambassador, remains abroad in seclusion. He was last reported in Europe.

If charges by the current government can be believed, Khanh embezzled millions of dollars. He is accused of having dipped deeply into secret funds which do not have to be accounted for.

A former defence minister, Lt. Gen. Nguyen Huu Co, has been since January in luxurious exile in Hong Kong, threatened by the ruling junta with trial if he ever returns.

Saigon newspapers estimate that, through kickbacks from defence ministry construction, equipment and supply contracts, he could have accumulated as much as \$10,000,000.

Vietnamese investigators

say some of Co's senior aides have admitted selling army commissions, charging the equivalent of \$500 or so for promotion from captain to major. They are also accused of selling draft deferments.

One field commander of the warlord type has been eased quietly to the sidelines for dispensing grand favors to his friends at grand prices.

Vietnamese investigators said this man sold military and provincial positions and exacted tribute from each of the provinces in his bailiwick, ranging from 10 to 15 per cent of the provincial budgets.

Now... One Bible
for Protestants
and Catholics

What books should the Bible contain? How should it be interpreted? Protestants and Catholics have always disagreed — until now. In May Reader's Digest read how the Revised Standard Version bridges the gap, how it compares with the King James... and why, last fall, Canadian Catholic bishops announced that the RSV Bible may be used for the Gospel and Epistle readings at Mass. Read why, after centuries of wrangling, English-speaking Protestants and Catholics may now read and pray from the same Book. Get May Reader's Digest.

African 'Market' Didn't Work Out

By STANLEY MEISLER
From Nairobi

Three African presidents will try this week to salvage the East African common market, once a proud symbol of African unity, now a harsh case study of the problems of economic union.

Although official statements have brimmed with optimism lately, most outsiders here believe the presidents of Kenya, Tanzania and Uganda have only a slight chance to succeed.

At the most, the presidents are expected to sign a treaty of co-operation that will proclaim continuation of the market, while loading on enough restrictions to make it unwieldy or even unworkable.

But federation seems more distant than ever. And while the common market may have increased the wealth of East Africa, it has done so by enriching one partner, Kenya, far more than the others. In fact, Tanzania probably has suffered in the common market.

The reason for the imbalance is simple. Since there are few tariffs or other trade barriers between the partners of the common market, in-

vestors, producers and importers can pick any spot in East Africa as a headquarters and trade from there.

Most have picked Kenya, particularly Nairobi, because it is the centre of transportation and communications in East Africa, has a skilled European and Asian population to help manage enterprises and has more and wealthier consumers for manufactured goods than any other city in the region.

As a result, the protective tariffs imposed by the common market against the rest of the world have helped Kenya but not the other partners develop manufacturing industries. Kenya has become the producer in the market while Tanzania and Uganda remain the customers.

Under colonial days, when the common market first evolved, this kind of imbalance did not matter too much. All three territories were ruled by Britain, which could manipulate their economies at will.

But now that Kenya, Tanzania and Uganda are independent, there is no outside force compelling them to have a common market.

(Los Angeles Times)

Treading Softly

Since one of the men arrested in Chao Seng, a leftist who virtually controlled the Cambodian economy until late last year, specialists feel that Sihanouk is striving to solve a major internal crisis as quietly as possible.

Although information is still too scanty for certain judgment, it appears that the volatile Sihanouk is himself in political difficulties. Having gone too far with leftists both

Extras Added

Since 1967, according to Sihanouk, the Chinese Communists have agreed to supply the Cambodian Army with arms and equipment of various categories, including aircraft and trucks, sufficient to supply 49,000 men. The Cambodian Army itself numbers no more than this.

As the routes have been reconstructed, there has been no covert smuggling. Instead, additional small arms — and a sprinkling of mortars and recoilless rifles adequate for at least 50,000 men have included in the Chinese arms shipments.

With the connivance of

senior Cambodian officials, those arms have been diverted to the Viet Cong and to Cambodian rebels who co-operate with them.

Ammunition and smaller items have entered Sihanoukville concealed in coal cargoes which come from North Vietnam.

The final item in the accounting is rice by the tens of thousands of tons.

It is obvious that an operation of the size projected must inevitably create a whole new apparatus of power, in addition to involving a substantial segment of the conventional power structure.

(Los Angeles Times)

Paradise Lost

SYDNEY
HARRIS

If a scientist were writing a history of mankind, he would divide civilization into three phases: The lack of energy, the conflict over energy, and the surplus of energy.

By "energy" is meant any force that produces and constructs, whether this be human slaves, wind, water, coal, oil, gas, electricity, or nuclear fission.

For the first several thousand years of human life, there was a lack of energy. We had to struggle to stay alive, and even so noble a staff as Athens required nine slaves for every one free citizen. In order to provide the energy for defending and expanding the state.

As we entered the Middle Ages, there began a violent and prolonged conflict over the new sources of energy. Slavery and indenture passed away, not because of humanitarian impulses but because they were more expensive and cumbersome than the newer forms of energy. The growing use of coal alone initiated more changes in the world's social system than any number of intellectual notions or political ideologies.

This system has gone on for more than 500 years; our minds and emotions are still involved in the conflict over energy. But we are now in the third phase of history: A surplus of energy.

With the advent of nuclear fission, the world has come

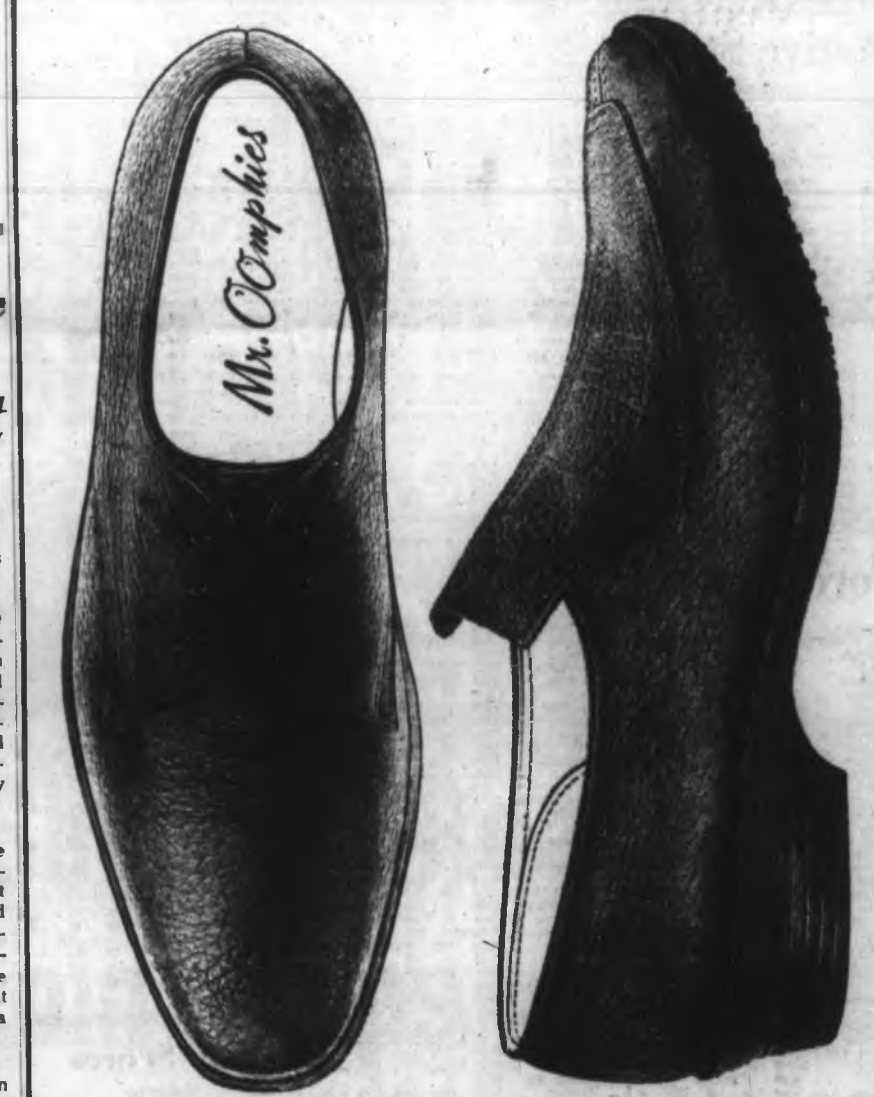

out of darkness for the first time. In physical and technical terms, we are now living in an utterly new society — one in which the entire world's energy needs can be supplied without taking some away from anyone else.

This has never been true before. There has always been a Darwinian struggle for slaves, for water, for coal, for oil, for gas, or for electrical sources of power. Now, the true meaning and magnificence of Einstein's equation can be seen in the unlimited energy released by nuclear fission.

But humanity still lives in the emotional and social and political darkness of the second phase of history. Our conflict is greater than ever before, and the great life-giving qualities of nuclear energy are being mobilized for death and destruction among the nations.

It is the crushing irony of the 20th century that we now have, for the first time, the means to eliminate poverty and starvation and the gross inequalities among peoples; a means by which no one will lose what another gains, but all will benefit mutually and permanently.

Yet, at the same time, we are employing this Promethean gift to perpetuate the ancient struggles for power and pre-eminence, for political dominance and ideological pride. With Paradise so close to our grasp, we seem to be moving closer to Hell every day.

Introducing the \$12.98
go-anywhere casual shoe

Mr. Oomphies

Why couldn't they have invented it sooner? Mr. Oomphies the go-anywhere shoe that never leaves you looking dog eared. You'd be surprised at the number of places where Mr. Oomphies shows up. This smart looking shoe is ideal whether the occasion is a board meeting or a ballgame.

Mr. Oomphies is long lasting too. They have a unique wrap-around sole that keeps feet dry, a cushion insole for easy stepping. And the smart leather uppers come in different styles and shades.

So remember Mr. Oomphies the \$12.98 Go-anywhere shoe, for men who take a firm stand on footwear.

Police Give Tickets

All motorists stopped in city police roadblocks before May 7 will be given a ticket—to the department's annual parade.

Already the police have handed out more than 600 of the guest tickets to motorists.

The parade will be held in Memorial Arena and will feature the presentation of service medals.

Sgt. Angus Munro is on leave and will not be present to receive the 30-year medal.

Twenty-five-year bars will be presented to Insp. William Andrews, Det. Napoleon Bouchard and Constable Robert Morris. Sgt. Albert Harwood, Det. Thomas Smith, Det. Lyle Somers, Det. Douglas Grant, Det. Lorne Johnson, Constable Lorne Shandley and Constable Frank Colli will receive 20-year medals.

The parade, which will begin at 2 p.m., will include music by the Victoria Police Department's youth band and the Canadian Scottish pipe band.

Mayor Hugh Stephen will address the parade and demonstrations will be given in drill by the department's precision squad and in self-defence by six policemen.

The parade is open free to the public.

Names in the News

'Go for Beer' Charles Advised

CAMBRIDGE, England — Prince Charles has been advised to go out and have a few beers, rather than sit around in his rooms doing nothing, when he goes to Cambridge University this fall.

But authorities at 400-year-old Trinity College here have no plans to organize his life for him, the master of the college, former deputy prime minister Lord Butler, told reporters.

Lord Butler — better known as Rab in his political heyday as plain R. A. Butler — said: "We want Prince Charles to mix with other young people and take part in college activities and sports."

"The danger is having under-graduates arriving here and sitting in their own rooms doing nothing. It will be better for him to go out to a pub and have a drink."

LONDON — Mr. and Mrs. Richard Burton took the top honors in the British Film Academy awards here. Burton, 41, was chosen best actor and his wife, Elizabeth Taylor, was best British actress for her performance in *Who's Afraid of Virginia Woolf?* Burton's *The Spy Who Came in from the Cold* was chosen best British film.

and Virginia Woolf best film from any source.

PACIFIC PALISADES, Calif. — Actor Frank Overton, 49, familiar to television viewers for his role in *12 O'Clock High*, has died at his home in Los Angeles following an apparent heart attack.

LONDON — Ringo Starr, shining the limelight as all the Beatles do these days, has made it known that he's going to be a father for the second time. His wife Maureen expects the baby in August. Ringo and Maureen already have an 18-month-old son, Zak.

BRIDHAM, England — Miss Elizabeth Lomas, 47, a school teacher from Bermuda, sailed from this southwest England port in an attempt to cross the Atlantic alone in a 22-foot yacht.

LITTLE FALLS, Minn. — Charles Margulies, 64, a top U.S. trumpet player, died while visiting relatives here. He had played with both Dorsey bands, Benny Goodman, Artie Shaw and Vincent Lopez. His trumpet accompanied Eddie Fisher on the recording *On, Mine Papa*.

CULVER CITY, Calif. — Actor Yusef Kaway, the suave hero of the Falcon movie series, has died in hospital of a liver ailment. Kaway, 63, was the brother of actor George Sanders. He was the star of nearly 300 motion pictures and the radio series, *Sherlock Holmes and The Saint*.

Reward Bid Raised For U.S. 'Silk King'

BANGKOK (LAT) — The persistent belief that American "silk king" Jim Thompson, missing in the Malaysian jungle for almost a month, is still alive has resulted in a reward of \$25,000 being offered here Tuesday "for information leading to his return alive."

The offer was made on behalf of the Thai Silk Co., a firm Thompson founded after the Second World War and now the leading producer of the beautiful "woolly silk" which has captivated tourists and Asian high society. His enterprise reportedly made Thompson a millionaire.

Thompson served during the Second World War with the U.S. Office of Strategic Services, predecessor to the Central Intelligence Agency. The most prevalent rumor is that he was seized by remnants of the Malaysian Chinese Communist insurgents. He disappeared while on a jungle stroll Easter Sunday at the Cameron Highlands resort.

A sum of \$10,000 was offered just for information leading to recovery of Thompson's body.

Returnees Clarkson, Showers, Kowalyk listen to coach

Return to Form by Clarkson Might Be Enough for Rocks

Big Larry Clarkson is back in an Inter-City Box Lacrosse League uniform and as a result, Victoria Shamrocks could well be a playoff contender.

Clarkson, back after missing a year, is again making the trip down from his home in Nanaimo and will perform on a line with John McNeill and centre Tom Collett when Shamrocks open the League schedule tonight at Memorial Arena against New Westminster Salmonbellies.

Vancouver or Coquitlam in the standings. Victoria finished five points behind third place New Westminster last year. Although boasting the second best defensive record, Shamrocks scored 27 fewer goals than Salmonbellies and 71 less than league champion Coquitlam.

Clarkson's linemate, McNeill, had a fine rookie season, scoring 23 goals. Collett's work schedule has changed and the speedster should be available for every game this season.

OTHER LINES
Unwin's other starting lines tonight will have Billy Gray between Ron Jay and Reg Foster and Bob Harris at centre for Nirmal Dillon and Bill Munroe.

Munroe, who has yet to display the goal-getting ability of his junior years, was the only holdover winger with less than 20 goals. With a good season, he could be the difference needed to get Victoria moving.

STRONG POINT
"I'd like to have had a few exhibition games," he said. "But nobody is operating locally yet."

One thing that is ready is the defence which has been a pleasant experience for the rookie coach.

The starting pairings are rookie-of-the-year Ramjit Dillon with Ed Kowalyk and Jack

Showers with Ted Liebh. Lonnie Restall will be the utility man.

"I'm pleased with the defence," he said. "They're working as a unit out there — talking, helping."

WHY NOT?
"I told them we could hardly expect such an outstanding season from Barry Forbes, the league's most-valuable player last year, again this season," he said.

"It would be nice, though," he added.

Doug Thompson will be back-up goalkeeper again this year. Shamrocks are stronger in depth this year already. Along with the return of Showers, Clarkson and Kowalyk, Unwin will try to give promising juniors Ron Zillie and Ken Alexander as well as Tom Black, Glen Robbins, Don Munroe and Alex McLennan a tryout in the near future.

SEPKA MISSING
One piece of good news for the Shamrocks is that all-time league scoring leader Cliff Sepka won't be with Salmonbellies tonight. He is still recuperating from a leg injury and may miss this season altogether.

However, high-scoring Paul Parnell and Wayne Shattsworth will be here and tempestuous Les Norman is back in the New Westminster goal.

SHIRINE WINNER
The trio performed well in New Westminster's 12-9 win over Vancouver Monday in the annual Shirine game.

Parnell, who set a league record last season by getting at least one scoring point in all 30 games, needs just one goal to reach the 400 level.

Seniors Set Tourney

Uplands Golf Club is the scene for the Vancouver Island Seniors' Golf Association tournament on Thursday.

Veterans from 22 lower mainland and Vancouver Island clubs are participating.

New Champions Assured In City Two-ball Meet

Victoria and district ladies two-ball match play tournament was a left without defending champions Tuesday at Victoria Golf Club when Margaret Fry and Ann Dye from Gorge Vale failed to qualify for the championship round.

Chris Holland and Betty Stevenson from Gorge Vale won medalist honors with a net 72.

Draw for today's first round matches at Uplands Golf Club:
CHAMPIONSHIP FLIGHT
8 a.m.—C. Holland, R. Stevenson vs. J. Fall, E. Jackson.
8:05—C. Van, F. Chapman vs. S. Murray, E. Eldridge.
8:10—I. Burn, J. Scott vs. E. Barnes, M. Higgins.
8:15—A. Leach, M. Goldrup vs. M. Pika, L. Thirwell.
8:20—S. E. Ewing vs. M. Goodhead, J. Ellis.
8:25—S. Silverburg, E. Bay vs. E. Liddell, P. Cooverth.
8:30—E. Tribe, J. Lovitt vs. M. O'Boyle, S. Jones.
8:35—E. Summers, B. Richards vs. D. Mann, E. Bent.
SECOND FLIGHT
8:40—M. Legman, M. Brunson vs. P. Wilson, D. Dugg.
8:45—S. Sutherland-Brown, P. Morris vs. O. McMillan, L. Hume.
8:50—C. Wilson, F. Johnson vs. K. Criddle, C. Byrne.
8:55—M. Sutton, M. Robertson vs. P. Parker, D. Mason.
9:00—A. Castle, F. Clarke vs. R. Bates, M. Prior.
9:05—M. Butler, M. Howard vs. B. Wilson, D. Campbell.
9:10—F. Howe, R. Gibson vs. R. Han, E. Henderson.
9:15—D. Harrell, J. Christie vs. N. Burt, E. Wilson.
FOURTH FLIGHT
9:20—P. Dewar, L. Williams vs. M. Fry, A. Dye.

Squash Final Upset Win For Dr. Bell
Dr. William Bell upset favored Roy Alderton, 3-2, in an all-Victoria final Sunday to capture the combined A-B Class at the Vancouver Island closed squash championships.

Top-seeded Nora Fenswick won the ladies final, 3-1, over Jill Lightbody while Anne Priest won the consolation award.

Other winners were Douglas Hawkes (veterans B), Elliot Walters (Class C), David Edgar (Class D) and Tom Larsen (under-15) of Shawnigan Lake School.

Bowlers Set Openings For Saturday
Three of the six Greater Victoria lawn bowling clubs start their 1967 seasons on Saturday.

Alderman Robert Baird of Victoria will perform the official openings at Victoria West at 1:30 p.m. and Beacon Hill Park at 2 p.m.

Saanich Reeve Hugh Curtis will open the Burnside Club at 2 p.m.

Lake Hill, C.P.R. and Oak Bay clubs open May 3, 6 and 13 respectively.

Replay Set
LONDON (Reuters) — Enfield of North London and Skelmersdale of Lancashire will replay their English Amateur Soccer Cup final at the Manchester field Saturday, it was announced Sunday.

Saturday's game ended in a scoreless tie, despite an overtime period and a penalty shot for Skelmersdale.

Do You Get Enough Sleep?
Do you suffer nervous tension, fatigue or depression — for no apparent reason? Doctors have traced these symptoms to poor sleep habits. In May Reader's Digest read why women are more susceptible than men... why younger women in particular must get sufficient sleep... how a new sleep pattern can help you feel better. Read how to get the sleep you need in May Digest now on sale.

Nothing on a Johnson is about to break, bend, leak, split, crack or fall off

when the fun starts

Johnson outboards are put together to stay together. There isn't a single part, not a bolt or a washer or an ounce of paint, that hasn't been exhaustively tested for maximum durability.

Johnson starters, for example, go back to the drawing board if they can't start 20,000 times in a row. And a carburetor isn't good enough until it runs an engine smoothly at both 120°F. and well below zero.

Johnson dependability comes in 11 sizes this year: Power/Pulse V-100, 80, 60, 40, 33, 20, 15, 9 1/2, 6, 5 and 3 horsepower. All use regular grade fuel with a 50-to-1 oil-gas mix and carry a 2 year warranty. Your Johnson dealer has a lot to talk about this year. Ask him about the exciting new GT-115. See him before the fun starts.

See the "JOHNSON BEAHORSE WATER-SHOW" at Expo 67—

COAST TO COAST NEWSPAPERS SELL THE MOST

Bonanza, Four Months Later

Second Christmas in four months came Tuesday for George Masters, who retires May 1 as administrator of Royal Jubilee Hospital. Employees in different departments presented him and Mrs. Masters with farewell

gifts that included Indian sweater, electric carving knife, marine radio direction-finder, mounted chronometer and barometer, and electric sander.—(Jim Ryan)

Would Cost \$4,000

New Restrooms for Park?

Until restroom facilities are improved in Beacon Hill Park it is the "backwoods of Canada," according to Ald. Robert Baird.

The alderman, who is chairman of city council parks committee, was battling Tuesday to defend a spending item of \$4,000 in 1967 parks department estimates. The money would be used to install sewer connections for restrooms and change rooms in the Cameron Memorial Pavilion.

Ald. Geoffrey Edgelow wanted the item deleted.

HANDS NEED THEM

"Every year I ask to have these toilets installed and every year I am refused. Why, hands have to run halfway across the park now when they want to find a toilet," said Ald. Baird.

"Well, if you had 75 children on the bandstand you couldn't get them all in anyway," retorted Ald. Edgelow.

Cutting simply for the sake of

cutting was not right, said Ald. Edgelow. "This is the type of work she could have done."

HIGHER PRIORITY

Ald. Lloyd Clarkson thought \$3,000 should be included in spending estimates to give a facility in the vicinity of Beacon Hill Park but Parks Administrator Herbert Warren said that there were other jobs with a higher priority.

Ald. Baird said he would see a woman who recently wrote complaining of the condition of the aviary. She might consent to fix it up, he thought.

Ald. Edgelow lost several small skirmishes with Mr. Warren.

The parks administrator budgeted for a "truckster," a three-wheeled, bicycle-type conveyer for use in parks.

Ald. Edgelow opposed the \$2,700 expenditure and battle was joined.

"They put old Queenie away,"

said Ald. Edgelow. "This is the type of work she could have done."

REGIONAL PARKS

In a general discussion of parks, aldermen agreed with City Manager Dennis Young that the city should not spend too much on parks outside its own borders as there was a distinct possibility that they eventually would be incorporated in the regional parks complex.

One such was Mount Douglas Park in a letter to the Victoria-Saanich beaches and parks committee. Saanich proposed construction of a \$31,000 fire protection system on the mountain to prevent a repetition of the bad fire there last year.

Aldermen were noncommittal on city participation in such a scheme.

Royal Commission on Financing Sharply Rejected

Bennett Mocks Civic 'Crybabies'

We'll See

Stephen Refuses Hassle

"We'll see who is a bunch of crybabies when the tax bills go out," Mayor Hugh Stephen said Tuesday when he heard Premier Bennett's denunciation of civic leaders who have been complaining about rising school costs.

The mayor, who has been a champion of a more equitable sharing formula for school costs and a general review of municipal-provincial relations, would not, however, be drawn into a controversy with the premier.

"I simply will not get into a personal hassle with the premier nor will I exchange invective with him."

"I merely state, and I reiterate that, as the premier wants a reappraisal at the federal level, so do we, at the municipal level, want a complete review of a situation which we consider to be unfair," Mayor Stephen added.

The mayor said he particularly had no intention of beginning an exchange with the premier in view of the Union of B.C. Municipalities emergency meeting to consider the question which is slated for New Westminster Friday.

Reeve Hugh Curtis of Saanich said the premier's "brade" does nothing to ease the growing conflict between provincial and municipal governments.

HIT NERVE

"His outburst would seem to indicate that municipal leaders have hit a nerve," said the reeve, who is an executive member of the Union of British Columbia Municipalities.

In that capacity, he will represent all of the Greater Victoria area at an emergency UBCM executive meeting to be held at New Westminster Friday to discuss the school costs crisis.

Reeve Curtis said if the "brade" is school costs, municipal leaders "should continue to irritate the more spot until the premier no longer can ignore the complaints."

POINTLESS

"The charge that municipal leaders are 'crybabies' is childishness in itself," added the reeve.

"Is the premier to level the same 'crybaby' accusation at local taxpayers who must now face a five-mill increase in their taxes for school purposes?"

"At a critical time such as this, residents of organized areas can do without this type of pointless name-calling."

Blast Shakes Waterfront

A loud blast in West Bay Tuesday night turned out to be a keen dredging crew anxious to do its work with peak efficiency.

The crew of McKenna Barge and Derrick of Vancouver was clearing a channel to West Bay Marina and the blast was part of the job.

"I thought it was going to knock all the windows out of the house," said one nearby resident.

Refit for Ferry

The Brentwood-Mill Bay ferry will be out of service from May 8 to 12 for annual refit and overhaul.

The ferry will be back on the job May 13.

At Curtis' Request

Saanich Cancels Reeve's Raise

By JOHN MATTERS

Saanich council Tuesday night agreed to cancel the raise it gave Reeve Hugh Curtis but the allowance to be paid councillors, also raised only 24 hours earlier, won't be touched.

The move means that the reeve's indemnity goes back to \$7,500 from the \$10,000 adopted by council at a special budget meeting Monday night.

But the stipend for the eight

councillors remains at \$200 a month, an increase of \$50.

"This year in particular, when the homeowners of this municipality and all others in B.C. are faced with a huge increase in school costs, such as salary increase, while not significant in the total budget for municipal operation, is simply another cost added on top of many," said the reeve, reiterating the plea he made Monday night to leave his salary untouched.

Coun. Edith Gunning, who first proposed the salary increase for Reeve Curtis, said she was satisfied with his statement "but would have preferred to hear him say that he was prepared to become a full-time reeve."

"We need a full-time reeve or the municipal manager system," added Coun. Gunning. "But I prefer the first."

She said Reeve Curtis is constantly on the go for the municipality, "running from one meeting to another."

But Reeve Curtis, who is an executive with Radio Station CFAX, said "it's not possible or desirable to become a full-time reeve at this time."

He said he remains convinced the most appropriate time to decide whether Saanich's reeve-ship should be a part-time or full-time job is at the municipal election.

TERM EXPIRES

"That is the time when the electorate can view the candidates offering themselves for this position and determine which person is likely to serve them best on a part-time or full-time basis."

"I am not prepared to alter my status in mid-term," added the reeve, whose two-year term expires in December.

"A man's private earnings should perhaps remain his concern alone, but in view of the fact that in my case the two sources of income seem to be inextricably related, it should be public knowledge that my private income has decreased within the past year."

TAKES UP

Coun. Leola Passmore then suggested councillors eliminate the indemnity increase they gave themselves the night before.

He argued that it was no time, in a year when taxes were going up at least seven mills, for council members to hike their salaries.

"Some people who have talked to me are disgusted with this council," said Coun. Passmore. "We should be realistic."

Replying to Coun. Gunning, Comptroller John Tybirk said the \$30-a-month increase represented a hike of one-twentieth of a mill in municipal spending.

MORE BABYSITTERS

Reeve Curtis said he would stand by his recommendation to increase councillors' indemnities — their work load has increased sharply, which means they are having to spend more for babysitters, transportation and so on.

"We could have done this very secretly in committee," said

Coun. Digby Kier. "They know now that we deal in the open and we're not trying to sneak something through."

When the vote was taken, only Couns. Passmore and William Campbell were opposed.

Gladdest Under The Sun

Perfect lunch to country churchyard scene was added by thousands of delicate wild lily blossoms. St. Mary the Virgin Anglican Church, at Metesford, was built in 1873 on land donated by Victoria pioneer John Wilby. Little plaque at gate of churchyard says: "Act reverently cherish the flowers. This is God's acre."—(Jim Ryan)

Policemen Shedding Aged Equipment

Old-fashioned handcuffs which had to be locked off and looked on and guns which were more dangerous to the man who was shooting them than the man they were pointed at are among the obsolete equipment city police are discarding.

Chief J. F. Gregory told aldermen Tuesday, while discarding his department's 1967

Room Tax Levy Scored

By BILL STAVDAL, Legislative Reporter

Premier Bennett mocked municipal leaders as crybabies Tuesday as he rejected a proposed royal commission to study municipal-provincial financial relations.

Home from a week-long California vacation, the premier came out swinging at municipal spokesmen who have complained loudly about rising taxes in recent weeks.

"The answer is no," said Mr. Bennett when asked during a press conference if he would agree to a royal commission. The Union of B.C. Municipalities will hold a special executive meeting in Vancouver Friday to discuss taxation.

STEPHEN BACKED

Victoria's Mayor Hugh Stephen called for the royal commission after the school mill rate rose by 4.8 this month. Others backed him.

"Somebody should send them some crying towels," said the premier heatedly when told about Friday's Vancouver meeting.

He said the property taxes account for only eight per cent of the tax money paid each year by the average British Columbian. The rest is levied by the province and the federal government, he said.

WHY CRY?

"Yet they (municipal officials) cry, cry and cry about eight per cent."

"Why they should just cry and cry I don't understand."

"I have noticed that some of them don't hesitate to raise their own salaries while they're crying about the poor municipal taxpayer."

"I would suggest it's 92 per cent crocodile tears."

LOWEST RATE

(Saanich council voted on Monday to increase their indemnities by one-third — from \$150 to \$200 monthly for councillors, and from \$7,500 to \$10,000 yearly for Reeve Hugh Curtis.) He said the average homeowner pays less school tax than in any other province, although children stay in school longer, teachers get more pay and the province has spent \$102,000,000 for school construction in the past 15 months.

The premier noted that the province gave an additional \$16,000,000 in school grants this year — "the highest increase in one year in B.C.'s history."

BETTER FORMULA

He said that the information a royal commission would produce would be no different from that already available from the Canadian Federation of Mayors and Municipalities.

"The reason they don't quote these figures is because our formula is better than anywhere else."

Mr. Bennett also criticized suggestions in Victoria that a four per cent sales tax on hotel-motel rooms be levied to raise money for a convention centre.

CENTRE NEEDED

He conceded that the city needs a convention centre, but said it is unfair to place a surcharge on tourists after the government has spent hundreds of thousands of dollars improving the area through the Capital Improvement District Commission.

He said the government would consider paying a share of the centre if the capital region municipalities got together on the project.

Mr. Bennett also predicted a 40-storey office block will rise in downtown Vancouver when the University Real Estate Development crown corporation is activated soon.

DIRECTORS MOON

The Bank of B.C. — also still on paper — will be the major tenant of the corporation, said the premier. The tower will rise next to Vancouver's court house, the premier forecast.

The crown corporation has never done any business but will soon have its directors named by the government, said Mr. Bennett.

Two Escape William Head

Police in the Greater Victoria area were on the lookout early this morning for two prisoners who escaped from William Head minimum security prison early today. Neither is considered dangerous.

Mr. and Mrs. James A. Turner of Alberni, B.C., announce the forthcoming marriage of their elder daughter, Anne Louise, to Mr. Charles Richard Hunt, eldest son of Mr. and Mrs. C. I. Hunt, 3950 Rainbow Street, Victoria. The wedding will take place

on Saturday, May 6 at 7 p.m. in St. Alban's United Church, Port Alberni. Canon F. C. Austin and Canon H. Greenhalgh will officiate. (Miss Turner's photo by Leonard Holmes, Mr. Hunt by Meyers Studio)

Mr. and Mrs. G. Rennison, 704 Brookridge Place, announce the forthcoming marriage of their younger daughter, Carole, to Mr. David B. Clarke,

1048 Burnaby Street, Vancouver, B.C. The marriage will take place at Our Lady of the Rosary Church, Langford, on Saturday, May 6 at 6 p.m.

Announcement is made of the forthcoming marriage between Soley Martina Lubin, daughter of Lt.-Cmdr. and Mrs. F. Lubin, 3155 Somerset Street, Victoria at the weekend, April 28-30, to attend the B.C. Provincial annual meeting of the Voice of Women at the Century Inn.

VOW Meet Here

Ann Landers

Dear Ann Landers: Last summer our daughter started to smoke at age 16. I hated to see that lovely girl with a cigarette in her mouth and I told her so. She ignored my request that she stop. I decided to take away her allowance and I did. She later convinced me that she needed money for necessities, so I restored part of her allowance.

Finally I told her if she didn't stop smoking I would give her only one year of college. She continued to smoke. Last week I announced, "Either quit smoking or you will get NO college." Yesterday I caught her smoking and now I must make good my threat.

The girl is bright and talented. I am working full time to send our older daughter to college and would have to continue to work to send this one. Their father never made enough money for extras.

I say if smoking is more important to this girl than college, I am a fool to work to put her through. What do you say?—HEARTSICK MOTHER

Dear Mother: In an attempt to win this battle you have gone out on a limb and sawed yourself off. Moreover, you have violated two cardinal rules for raising children: (1) don't promise or threaten that which you don't mean to deliver, (2) make sure the punishment fits the crime.

Unfortunately, your daughter is using cigarettes as an expression of rebellion—a symbol of her independence. But you won't solve that problem by denying her an education. Go to her and say: "I am opposed to your smoking because it is damaging your health. It is a dirty habit and it is an expensive habit. I withdraw all threats, however, and I leave the decision up to you."

Dear Ann Landers: I was amused by your reply to the modest woman who objected to saleswomen intruding when she was stripped down to the altogether trying on girdles and brassieres. You were right when you said it was awfully hard work for a saleswoman to stuff a 44 backside into a size 38 girdle.

My cross was bathing suits. No slyph myself, I was overly sympathetic to my hefty customers. But I was astonished at how unrealistic they were about their figures. Many women needed my help to get into those swim suits because they insisted on buying suits which were two sizes too small. I often wondered who stuffed them in after they left the store.

Why didn't you suggest the most obvious solution to the problem, Ann? If a customer told me she didn't need help I did not try to help her. I merely wrote up the sale when she came out of the fitting room and handed me the garments.—NO BARGER INNER

Dear No Barger: Some of us

Take Turns

CALGARY (CP)—Five local churches have formed a committee to sponsor monthly gatherings for elderly people in the city. Anglican, Baptist, Roman Catholic, Lutheran and United Church women take turns holding luncheon meetings at their churches.

Deanery Groups To Be Formed

Education and organization were the principal themes when Anglican Church Women met recently at St. David's by the Sea, for the Diocesan Board meeting.

After careful consideration it was decided to form ACW Deanery groups in Victoria and Saanich, and that the Diocesan Board would meet five times in the current year instead of monthly.

Mrs. Dora Brown, treasurer, read letters of thanks from Archbishop Sexton for a gift of \$200 to the Archbishop's Diocesan Fund, from Camp Columbia for \$500 towards a professional Camp Leader, and from Columbia Coast Mission for \$25.00 towards roof repair of the clinic at Whaletown. The sum of \$3,500 has been sent to the National Board for the budget. A donation of \$75 has been made for Hospital Bulletin.

Mrs. H. E. Hubbard, Extra Cents Secretary, read appeals from St. Andrew's, Sidney, for assistance with hall repairs, and from St. David's for a grant towards the purchase of chairs and it was decided to give \$300 to each on the funds become available.

Mrs. R. Monaghan, Secretary of Dorcas-Supply, asked that all school sewing be sent in, and Miss Marjory Bernard, Social Service Secretary introduced Mrs. E. Boward, who reminded members that the annual

den party at the Caroline Maclellan Home will be held on June 14.

Rev. H. Gordon Walker spoke briefly on the need to work out the truth in today's world, and to obey the truth when found, a theme which was taken up by the principal speaker of the day Mrs. C. F. MacRae, of Waterloo, Ont., national chairman of education, who discussed how to find guidance, by prayer and study.

Mrs. C. A. Patterson, Comox, announced the meeting of Comox Deanery to be held on May 18 at Port Alberni, and Mrs. H. C. Hanson of Duncan announced the Cowichan Deanery meeting to be held in Duncan on May 17 at Christ Church Cathedral, at 7:30 p.m.

CARD PARTY
Monthly card party of St. Mark's Church (Anglican) evening branch, Bolekine and Tenaycon Roads, will be held Friday, April 28.

To Beautify Your Complexion
For sheer loveliness in complexion beauty there is one simple but important rule to follow. First you must remember that all the time moisture is evaporating from your surface skin and every time you wash you drain off valuable skin oils. The result is a gradual tendency for the skin to develop dry wrinkles. This loss of skin oil and moisture is no easy to stop. Ask your druggist for a little oil of Olav and every day and all day see that your complexion is well protected with a film of this tropical oil. It will check further wrinkles and do much to smooth away past damage. Don't forget the same plan to keep your neck and hands lovely as well.

... Margaret Merrill.

Italian Cuisine

Only Nod for Spaghetti

By JEAN SHARP
(CP Women's Editor)

FLORENCE (CP)—When an Italian gourmet lovingly describes Italian cuisine and the seven courses of a formal dinner, spaghetti gets a nod only as a regional second course—a dry soup. It appears on the menu of the Hotel Luchessi in Florence as spaghetti Ameri-

cana.

Dr. Marcello Caminiti, provincial director of tourism for Florence, is a gourmet who has written a book on the food of Romagna-Mangiarli di Romagna.

He describes a formal dinner as beginning with anti-pasto, then minestra, which may be soup or dry soup based on ravioli, tagliatelle, spaghetti.

"If the dinner is important there is a piatto di mezzo—middle dish—generally a flun of vegetables. After this the main dish of meat or fish, then cheese, fruit, cakes, and coffee.

"Romagna is an area in the

and, of course, appropriate wines."

To North American pizza addicts, Dr. Caminiti's capsule descriptions of regional cuisines may sound surprising.

"There is more than one cuisine in Italy. The classic are the Piedmontese, Tuscan, Venetian, Roman and Sicilian."

"Over these five there is a sixth one, considered best by Italians, Emilia-Romagna. It includes many soups and rich foods."

"The cuisine has been known from the Middle Ages, and at that time especially, for the local habit of giving gourmet parties."

WINE STRONG

Dr. Caminiti says Piedmontese is similar to the French, a sophisticated cuisine based on meat, especially red meat. The wines are extremely strong, the strongest in Italy.

"Venetian, instead, is a delicate cuisine that emphasizes fish and white meat."

"Tuscan is a very simple one which also concentrates on meat, but with a large use of chicken and game. Chianti wine is an integral part of Florentine and Tuscan cuisine."

"Sicilian is a cuisine of fish and vegetables. It is the homeland of tomatoes. But the people, because they are generally poor, eat a lot of soups. The best known is called pasta e ceci made pasta with a fish sauce and to sardines. It is very nourishing and practically enough by itself."

"Romagna is an area in the

centre of Italy, east of Florence on the Adriatic. Its cuisine is one of the most complete and tastiest in Italy."

"It is known for the classic abbacchio roast young lamb, the abundance of fruits and vegetables and the white wine of the Roman hills."

"Romagna is the homeland of the ravioli and tagliatelle. Practically all the women make rich pastas."

"They use, almost exclusively, red meat, beef and pork, salami and prosciutto ham. Romagna is also the homeland of Parmesan, the classic Italian cheese."

LIKES FISH DISH

Dr. Caminiti says his favorite dish is la ghiotta. The word is the feminine of gourmet. The dish is made with six different types of fish cooked with white wine. It can be used alone or with spaghetti as a sauce."

In his book, Dr. Caminiti includes instructions, without quantities, for making green tagliatelle with ingredients he

VICTORIA TRAVEL CLUB
LAKE OWICHAN, YOUSOU AND HONEYMOON DAY—SATURDAY, APRIL 28th

Enjoy a leisurely trip by chartered bus leaving 8:45 a.m. for the last frequent of Vancouver and beyond to Lake Cowichan, the beach, afterwards enjoying the views of Cowichan Lake to You Sou and to Honey Moon Bay. See the lovely part of Vancouver Island in all its beauty. \$4.50
Annual Membership Fee, \$10
HELEN S. EDWARDS
21 Marlborough Street
255-1275

says produce a lighter version than one made with all eggs.

You use spinach, soaked and minced, to work into the dough to give it the green color.

"With two eggs and a fistful of spinach, spread some flour on a board to be worked with your hands until it becomes a firm dough. Roll it thin with a rolling pin. If it has a tendency to stick, add more flour."

"Cover the dough with a cloth and when it is dry, cut it in half inch strips."

It is a test of the skill of the cook to get the strips as long as possible.

Cook it briefly in a pot big enough to allow the strips to stay separate, and serve it with a meat sauce, with Parmesan cheese, with butter.

Lines Around the Mouth

The mouth area comes in for as much attention as the eyes. The lines are smoothed out and made to disappear. The younger you will look. A lotion-like substance 2nd Debut applied nightly will make the lines fill in and the skin become smooth once more. You will probably use 2nd Debut on your entire face to banish dryness, but do use a little extra care around your mouth. After applying the 2nd Debut massage very lightly, until it disappears into your skin. Your dress or nightgown has 2nd Debut with CEF 600 or CEF 1200 in double strength and you'll find it a genuine delight to use.

How Birks' Silverware is Made: 25-50%

BIRKS

SOCIAL AND PERSONAL

Mr. and Mrs. E. A. Rolsted of 1182 Transit Road, who are celebrating their golden wedding anniversary today, will be honored by their many friends at a no-host dinner party this evening at the Oak Bay Beach Hotel. Mr. Rolsted was with the Bank of Montreal for many years and when he retired was manager of the bank in Chilliwack. He and his wife came to Victoria in 1943. Mr. Rolsted was born in Norfolk, England. They were married in Calgary.

Forthcoming Marriage

Mr. and Mrs. J. H. Downard, 291 View Royal Avenue, announce the forthcoming marriage of their daughter, Donna Rae, to Mr. Robert Paul Cuthbert, son of Mr. and Mrs. A. C. Cuthbert, 4462 Willson. The wedding will take place at 3 p.m., May 6, in All Saints Anglican Church, with Rev. John Vickers officiating.

Saturday Wedding

Mr. and Mrs. James Childow, 3672 Happy Valley Road, announce the forthcoming marriage of their eldest daughter, Peggy Lynn, to Mr. Charles William Price, son of Mrs. Laura Pettigrew, 227 Robertson Street, and the late Mr. Charles E. Price. The wedding will take place at 8 p.m., April 29, in St. John's Anglican Church, Colwood, with Rev. P. W. R. Isles officiating.

Announce Marriage

Mr. and Mrs. R. O. Gunning, 2784 Dewdney Avenue, announce the marriage of their younger daughter, Patricia Maureen, to Mr. Saum Yaw (Foony) Chung, son of Mr. Chung Wing, Victoria, and the late Mrs. Chung Wing on April 21.

Out-of-town Guests

Guests at the Turner-Bradshaw nuptials Saturday included Mr. and Mrs. Barry Turner of Berkeley, California; Mr. and Mrs. G. B. Turner of Nanaimo; Mr. and Mrs. Ian Hamilton of Castlegar; Mr. and Mrs. John Bonaguro of Alberni; Miss Carol Ross of Prince George; and Mr. and Mrs. Frank Hocken. Mr. and Mrs. J. Hohlant, Mr. and Mrs. J. Gourlay, Mr. Kerry McDonald and Miss Sharon Mitchell, all of Vancouver.

Centennial motif will be the theme of annual bazaar, sponsored by Elizabeth Fisher-Belmont Schools Association, to be held at 7 p.m., April 28, in the schools on Jacklin Road. Proceeds from the bazaar, which is under the direction of Mrs. W. Findlay, vice-

president, will be used primarily for bursaries and book prizes for graduation ceremonies. Discussing arrangements are from left, Mr. Milton Kubi-sheki, association president; Mrs. N. M. Radford, art gallery convenor; Mrs. G. G. Smith, book stall convenor.

Collins-Platt

Honeymoon in Seattle

St. Martin's-in-the-Field Church was the scene of a pretty wedding recently when Pamela Louise, daughter of Mr. and Mrs. George T. Platt, and Mr. Edmund James, son of Mr. and Mrs. Edmund W. Collins were united in marriage. White gladioli decorated the church for the service at which Rev. E. A. Cowan officiated.

Entering the church on the arm of her father, the bride was lovely in her floor-length sheath gown, fashioned with a detachable Chantilly lace train which swept from a bow at the back waistline of the nylon-over-taffeta gown. The bodice was styled with a scoop-neckline and sleeves ending in lily points. Four roses started the floral headpiece which held a tiered shoulder length scalloped bouffant veil of silk illusion net. She carried a crescent bouquet of pink roses and white carnations.

Miss Kathie Robbins, maid of honor, and bridesmaids, Mrs. Janet Madill, sister of the bride, and Mrs. Thomas Hoyle, sister of the groom were gownned respectively in pink-and-blue empire style floor-length gowns of Chantilly lace over peau-de-seze. Their matching floral headpieces were edged with veils and their bouquets comprised of mauve-toned gladioli. Completing the outfits were the bride's gifts of black Alaskan pearls.

Mr. Gary Marshall was best man and ushering were Mr. Tom Hoyle and Mr. Dean Sheen.

A miniature bride and groom decorated the three-tier wedding

cake which centered the head table at the Holyrood House reception. Mr. Glen Robbins Sr. proposed the toast to the bride. For a honeymoon in Seattle, the new Mrs. Collins chose a gardenia.

ARDA Director Talks to Club

What is poverty? asked James Allin, director of ARDA, in British Columbia, at the recent meeting of the Women's University Club of Victoria.

The word has different meanings and is not easily defined, he told his audience. "Arbitrarily we say that those rural people whose annual income averages less than \$3,000 live in a disadvantaged area."

Mr. Allin went on to describe the various programs under

ARDA, the Agricultural Rehabilitation and Development Act, which attempts to help disadvantaged areas within the province. These include research projects, conversion of lands of low agricultural capability to other uses, assistance to, and resettlement of, rural people affected by these programs, and soil and water conservation.

Mrs. S. S. Molland introduced Mr. Allin and he was thanked by the program convenor, Mrs. D. L. South. Meeting, which was held in the faculty lounge on the Gordon Head campus, was presided over by Mrs. R. A. Fraser.

During the business hour Mrs. C. J. Calder announced slate of nominations for next year and Mrs. Fraser invited all who plan to attend the triennial of the Canadian Federation of University Women to submit their names. Convention, which is being held in Vancouver, Aug. 23 to 26, will have for its theme Arts of the Century.

Clubs

KIPING SOCIETY
The Kipping Society will meet on Wednesday, April 26 at 2:30 p.m. at 637 Linden Avenue.

Carol Rourke Honored At Pre-Wedding Parties

Miss Carol Rourke, whose marriage to Mr. John Condon B. M. Rourke, and the groom takes place on May 20, was honored at a surprise miscellaneous shower at the Cedar Hill Road home of Mrs. R. Silver. Miss Marlene Casillo was co-hostess.

Coronas of cream hyacinths and violets were presented to the bride-elect, her mother Mrs. Dand, Mrs. P. Rogers, Mrs. D.

Atherton, Mrs. J. Browning, Mrs. L. Silver and Mrs. J. Thorne, and the Misses Penny Thorne, Janet Condon, Sharon Rourke, Pat Rourke, Kathy Rourke and Gladys Cree.

Miss Eileen Novakowski entertained at a towel and linen shower for Miss Rourke. A linen basket filled with the many gifts was presented to the honored guest.

Centering the refreshment table was a cake inscribed with Shower of Happiness.

Guests were Mrs. Rourke and Mrs. Condon, and Mrs. M. Hart, Mrs. B. Tait, Mrs. A. Silver, Mrs. R. Olson and the Misses Jackie Leaky, Colleen Hourigan, Marlene Casillo, Pat Rourke, Sherry Rourke and Janet Condon.

Bazaar Today

Esquimalt Golden Age club will hold a bazaar in the Jubilee Hall, Fraser Street, from 2 to 4 p.m., today.

There will be homecooking with fruit pies and homemade bread, fancy work, aprons, white elephant, penny stall and tea. A chicken dinner will be served.

Coverers include Mrs. A. McVie, Mrs. W. Kirk, Mrs. M. Naysmith, Mrs. J. Cory, Mrs. W. Strawson, Mrs. M. O'Neil, Mrs. H. Brown, Mrs. M. Wilson, Mrs. D. Dunlop, Mr. M. Curver and Mr. T. Ryley.

Coffee Party

A homecooking stall and cake raffle will be featured at the coffee party to be held in the Douglas Room, Hudson Bay Company, from 11 a.m. until 1 p.m., today.

The affair will be sponsored by the women of the Victoria Liberal Association.

Mrs. J. T. Jones, vice-president of the Association will welcome guests. Mrs. J. Slater will convene the homecooking stall, and Mrs. E. L. Johns will be in charge of flower arrangements.

MIGRAINE SICK HEAD-ACHE

Many people have found their most satisfactory relief from splitting headaches in taking T-R-C. Not only do T-R-C give fast relief from the pain, but they relieve depression that often accompanies head-aches. However for migraines, sick head-aches, with no accompanying nausea, we recommend T-R-C SPECIALS—relieve the pain—do not upset even a very sensitive stomach. T-R-C SPECIALS \$2 at all drug counters. You get just one after taking T-R-C SPECIALS for Migraine.

Teacher to Give Talk on Algeria

"Algeria" will be the topic of Mrs. Germaine Kalkon when she addresses L'Alliance Francoise de Victoria, today, in the Art Gallery of Greater Victoria.

Mrs. Kalkon received her early education in Rabat, Morocco, where she was born, and later studied for degrees in law at the University of Bordeaux in France. Before coming to Canada, she was judicial adviser with private companies in Paris and Algiers.

Arriving in Canada in 1962, Mrs. Kalkon studied for her bachelor of arts at the University of Manitoba and in Ottawa, and taught French in Windsor and Ottawa secondary schools. The speaker also acted as an interpreter for the state department in Ottawa.

Spring Tea

A spring tea will take place on Wednesday, May 3, in the Upper Hall of St. Mary's Anglican Church, Elgin Road, Oak Bay, and will be under the auspices of the afternoon branch of the Anglican Church Women. Tea will be served from 2:30 to 4 p.m. and there will be a book stall, thrift table, food table and knit-goods. The juniors will sell candy.

Now is the time to visit the MAINLAND

Stanley Park

and Coach & Ferry is the way to go.

Spring is the nicest time for a never-to-be-forgotten visit to Vancouver and the fascinating B.C. Lower Mainland, and there is no more satisfying way than by Motor Coach and Ferry. The fine parks and gardens are never prettier. Beaches are clean, uncrowded. Weather is at its very best, and welcome mats are out everywhere. Coach and Ferry is the relaxed, fun-way to make the trip, the most convenient, the most economical. Take a day, a weekend, or a month. Be completely carefree, stop anywhere, see everything. Your comfortable deluxe Motor Coach is first on the Ferry for the delightful Gulf voyage. And first off at Tsawwassen for the drive along the Freeway through Deas Island Tunnel into the throbbing heart of the great City. Metro Vancouver abounds with places to go, things to do. Spend a day in 1000-acre Stanley Park, at zoos, aquarium, miniature railway, colourful gardens, shady walks. Or in Queen Elizabeth Park, with its superb sunken garden. Visit the North Shore's famed Capilano Suspension Bridge, and take the Sky-ride to the top of ureous Mountain. See great ships come and go in the Pacific Coast's busiest Port; the panorama from Burnaby Mountain, the gracious campuses of the Universities. Take your pick of Vancouver's fine shops and restaurants. Its big-time night spots and exotic Chinatown. Its art galleries, theatres, museums, sports spectacles, exhibitions and trade shows. An exciting array of day and night activities are yours on a springtime visit to Vancouver. And the best way to go is the Motor Coach and Ferry Way!

Courtroom Parade**Rape Charge Brings Trial**

Twenty-one-year-old Paul Willard Franklin, 2639 Mt. Stephen, was committed for trial Tuesday by Magistrate William Oster on a charge of raping a 17-year-old girl.

The commitment was made in central magistrate's court after a preliminary hearing. Franklin, represented by Jack Gatehouse, will be tried by a judge and jury.

The girl told the hearing that she had known Franklin for about three years. She met him on the evening of April 8 at a Johnson Street cafe and agreed to accompany him to a local dance hall.

JEWISH CEMETERY

Franklin instead drove in the opposite direction and stopped at the Jewish Cemetery at Cedar Hill and Fernwood, the girl said.

"He said he had to go to the washroom," she said. Franklin returned to the car and they began talking, court was told. He kissed her and then put her on her back with a judo demonstration. It was added.

TWISTED ARM

Franklin let her up, had a cigarette and put her down again on the front seat of the car, she said.

"He twisted my arm behind my head," she told the court. "I kept asking him to let me up and he told me to shut up."

At one stage she said she grabbed the car's steering wheel and the horn blew for about five seconds.

TWO CHILDREN
She told prosecutor Peter Birkett that she had never married and that she was the mother of children aged three years and nine months.

Afterward, she said, she gathered items of her clothing and ran to Cedar Hill Road, where she waved down a car driven by David Graham.

Mr. Graham said the girl told him: "I've just been raped."

Kenneth George Thompson, 816 Lampton, pleaded guilty to one charge of breaking and entering, one of uttering a forged cheque, one of attempting to utter a forged cheque and one of possession of stolen property.

Thompson was remanded to May 3 when he will also be sentenced on 13 counts of uttering forged cheques. He pleaded guilty to these counts Monday.

Det. Jack Perry said Thompson broke into Ocean Express Ltd., 47 Kimsa, March 28 and stole 12 blank cheques and a rubber stamp belonging to the firm.

CASHED CHEQUE
He cashed a forged cheque for \$243.34 March 3 at a supermarket, and attempted to cash another forged cheque written for \$165.75 at a beer parlor March 29.

He was refused payment and arrested soon afterward in a nearby beer parlor. Police found on him 11 cards of identification in the name of John Fortina. Thompson said he bought the "kit" from a man in a Sooke beer parlor, but Det. Perry said the cards had been reported lost in Sooke last year.

George Liska and Bryan Ross, both of 159 South Turner, pleaded guilty to breaking into Fairfield United Church, 1305 Fairfield, Menzies Fish and Chips, 211 Menzies, and St. Luke's Anglican Church, 3821 Cedar Hill Cross Road, Monday morning.

Ross also pleaded guilty to stealing a rod and reel from a car and Liska pleaded not guilty. He was remanded to Friday for trial.

They were remanded to May 2 for sentence. They will also be sentenced then on a charge of breaking into Arnold's Bakery, 725 Discovery.

Det. Richard Ward said two bottles of Australian wine were taken from St. Luke's, a microphone from the Fairfield church and a dozen bottles of pop from the Menzies Street store.

Gerald Harvey and Ronald May, both of 46 South Turner, and James Erdman, no fixed address, have elected trial by judge and jury on a charge of robbery with violence.

They are charged with the April 11 robbery of Hebdon's Jewellery Store at 1006 Blanshard.

The preliminary hearing will be held May 15.

A \$20 bill missing from the till at The Cellar, 1061 Fort, April 16 was found in the purse of a waitress, Charlotte Phillips of 1834 Stanley.

She pleaded guilty to theft under \$50 and was remanded to May 2 for pre-sentence and psychiatric reports.

Constable Murray MacArthur said the owner had taken the serial number of the bill when it was placed in the till.

William Stephenson of Mayne Island was fined \$300 and had his licence suspended when he pleaded guilty to having the care and control of an automobile while impaired.

Court was told Stephenson was found slumped over the wheel of his car Monday night on Cook Street.

Gordon Berreth of HMCS Saskatchewan was fined \$35 for being a minor in possession of liquor.

The senior NOCs taking the course will soon be commissioned as officers.

Public Works Minister Chant was promoted briefly Monday to the rank of governor-general when he read the throne speech at a mock parliament held by trainee naval officers at CFB Esquimalt.

Following the one-day sitting Mr. Chant commented, "It was a most interesting day and the men did themselves a great deal of credit in the way they conducted their sitting."

NO COUP
"There was plenty of spirited debate and the Opposition had lots of smart criticism. The members certainly conducted themselves better than we do in the legislature."

Asked if there was anything ominous in servicemen learning to run the country, Mr. Chant quipped, "Perhaps they had better be prepared," he added, laughing, that he thought there was some possibility of a military coup.

The minister continued, "Both Mrs. Chant and I were very impressed by the calibre of the trainees and we had a most enjoyable day."

"Clerk of the Legislature Ned DeBeck acted as speaker and he was a great help."

The senior NOCs taking the course will soon be commissioned as officers.

Driver Dies
CHILLIWACK (CP) — Marvin Toime, of Chilliwack, has been charged with impaired driving following a fatal car crash Friday. The charge followed a two-car crash which claimed the life of Alvin Toop, 52, also of Chilliwack.

Det. Jack Perry said Thompson broke into Ocean Express Ltd., 47 Kimsa, March 28 and stole 12 blank cheques and a rubber stamp belonging to the firm.

Pets Need TLC

By M. V. CHESNUT

With all the outdoor work to be done in the garden these days, we are apt to overlook the needs of our houseplants. These pets of ours have had a pretty miserable time of it through the winter, suffering from stuffy, hot, overly dry air, and they will respond most gratefully to a little of what the hospital nurses call TLC — Tender Loving Care.

It is quite a common thing for a maidenhair fern to push up a number of fresh green shoots in the spring, only to have them turn brown and die when only a couple of inches high. This is usually due to too much watering during the winter months when the plant is semi-dormant. The roots, comparatively inactive in winter, tend to rot off when kept too wet, and the impaired root system is unable to support the new growth of spring.

Once the soil in the bottom of the pot has become waterlogged and stagnant in this way, it is quicker and better to repot the plant into fresh soil rather than to try to nurse the old, sickened soil back to health.

Unpot your plant and scratch away

most of the old soil with a kitchen fork before repotting into fresh stuff. Make a mental note at the same time to go easy on the water next winter, giving only barely enough to keep your fern alive.

That hallmark of Victorian respectability, the Aspidistra, is probably the toughest of all houseplants. Nothing can kill it: drought, overwatering, neglect, starvation, gas fumes — the plant just shrugs them off and goes on peacefully producing its glossy big leaves.

There comes a time in the life of every plant, though, when sex rears its ugly head, and the Aspidistra is no exception. Along about this time of the year, your plant may become weary of its state of single blessedness and will proceed hopefully to produce a few flowers.

These are horrible looking things, hardly recognizable as flowers at all. They are squat, miserable little excrescences formed just at soil level, about an inch across, purplish on the outside and a dirty yellow inside. Most Aspidistra owners pick off these ugly blooms in the belief that they rob the

plant of nourishment. They are confirming cause and effect, however; the plant starts feeling sexy and produces its flowers for the same reason that a human birth rate rises in times of war or national emergency — from a feeling of insecurity.

Your Aspidistra's pathetic attempt to mate and have seeds and thereby propagate the race is an almost certain sign that its soil is exhausted and its roots potbound. The treatment, of course, is to repot it into fresh soil and a larger container. If it is already a very large plant, it would be better to divide the root and replant the pieces individually.

The Persian cyclamen is nearing the end of its season and it is about time now to dry off the plant and store it, in its pot, in the basement until August. After its annual rest, the bulb may be shaken out, repotted in fresh soil, and started into growth with a little water. Don't blame yourself if it fails to make a comeback, though, for the cyclamen is an unpredictable critter and you can never count on sure on a second year of bloom.

JACK SMITH Keeps His Illusions

Understanding Ruins Opera

Meina Mercouri, the memorable waterfront harlot of Never-On Sunday, had a romantic feeling for the ancient Greek tragedies.

On rare holidays from the rigors of her trade, she loved to go to the ancient amphitheatre in Athens to watch the likes of Oedipus and Medea work out their terrible destinies underneath the Peloponnesian moon.

Miss Mercouri couldn't understand a word of course. The plays were done in classic Greek, and she spoke only the patois of modern Piraeus.

Thus, she was able to fancy the old tragedies as pleasant romances, with happy endings. Despite the bloody calamities on stage, she insisted that all was set right in the end, and "everybody goes to the seashore."

I feel the same way about grand opera. When we decided to see La Traviata

recently, I made sure the performance was in Italian.

"The matinee is in English," my wife pointed out. "That might be interesting for a change."

"No, Never," I said. "I don't want to know what they're saying. It might spoil everything."

When I first saw La Traviata 30 years ago, I had no idea what the story was about. The prelude was so sweet, so full of delightful promise, I was sure nothing bad could come of it.

The ensuing drama seemed to fulfill that promise. The lovely ensembles, the lovely duets, the Bohemian revelry — a tragic ending was unimaginable.

Violetta's cough troubled me, but I thought it was only a slight cold. I was shocked when she shrieked her last — "Alfredo!" — and sank to the floor.

So I've always known, ever since then, how it comes out. But I have kept my illusions about the meaning of events leading up to this melancholy denouement.

We went to the Italian version. In the lobby, though, I bought a booklet, thinking it was merely a program. It turned out to be the complete libretto, with the Italian translated into English.

"Here," I said, handing it to my wife, "you can keep this. I'm not interested."

While we waited for the curtain she studied the libretto. Near the end of the second act, when Alfredo's father is singing the beloved Di Provenza, she began to weep.

"What were you crying about?" I asked when the act was over. "That's one of the pleasantest tunes in opera."

"It's so sad," she murmured. "The father is begging his son to come home again, come home again to Provence. He tells him how sad and empty the house has been, how lonely and aching is his heart."

"That's what you get," I told her, "for reading the English translation. I always thought the father was trying to tell Alfredo the loved Violetta, too. It's a lot better story."

Italian opera should remain Italian. English is not suited to Italian tragedy. It is more the language of HMS Pinafore. A story like La Traviata couldn't happen in English.

If it had been written in English, the doctor would be the leading man, Julie Andrews would play Violetta. The doctor would save her life with penicillin. And everybody would go to the seashore.

The Little World of SHEILAH GRAHAM

Marriage On Trial

HOLLYWOOD (NANA) — No one seems to be quite sure whether the Richard Harris's have in fact reconciled. Elizabeth remained with Richard in Hollywood for five days only, then took off for Nassau and England where my spies saw her lunching with Christopher Plummer.

Jack Hawkins completed his role in the Great Catherine in fine style and the work did him good mentally and physically. Jack is enormously grateful to Peter O'Toole, who had Jack's role written into the script to help the actor who underwent an operation for throat cancer a year ago. Jack will be producing plays and films for O'Toole and partner Jules Back.

For the first time since they leaped to fame, the Beatles' new record, Penny Lane, did not hit the top of the song charts in England. And even more surprising was the fact that no one commented on it in print. A year ago if a Beatle record was not No. 1 it was almost a national catastrophe.

Now nobody cares, and I am sure they are delighted — well, in a way. They have wanted privacy and they are getting it.

Linda Christian's 15-year-old Komika has a strange allergy. Long, boyish hair affects her breathing. This is quite a problem because her titled boyfriend has shaggy locks. It reminds me of the married producer whom I overheard through his doctor's too thin walls, telling him he was allergic to staying home. They put it down to the carpet!

It seems that handsome James Fox has an equally god-looking older brother, Edward, James, who sings and dances in Thoroughly Modern Millie, joins Edward and new bride Sarah Miles (Mrs. Robert Bolt) in the West End revival of The Importance of Being Earnest. Oscar Wilde is the rage again in London with one of his other plays, Lady Windermere's fan, in full blast with a cast that includes Irene Brown and Colin Rodgrave.

Eat More, Slim More!

By NINO LO BELLO
From Vienna

After 14 years of research, study and clinical observation, a Viennese medical doctor has come up with a "major scientific breakthrough" in the field of calories — a discovery so deceptively simple it seems incredible it hasn't been hit on sooner.

Dr. Heinz Humplik has discovered that almost any person, if he so chooses, can eat large quantities of food and still lose weight. Without ever going hungry, individuals would be able to shed pounds, improve their health and increase their vitality.

In one of Germany's venerable and most authoritative medical journals, the Münchener Medizinische Wochenschrift, the Viennese biologist has published his findings and

conclusions on digestion, food and calories.

Essentially, a calorie is a unit expressing a heat-producing or energy-producing value in food, but Dr. Humplik has come up with a hard-fast observation on the body's function in converting food into energy that now makes consuming calories pass.

Based on extensive research, the Humplik discovery reveals that many good items of food make the body burn up more calories to digest them than the caloric worth of the given food item itself.

This is so because certain foods need complicated chemical changes to be digested, while others are processed with a more simple physiological operation.

One such food item, for instance, is the hard-boiled egg, caloric value 80. To digest the 80-calorie egg, the body uses up 92 calories—which means

that the extra 12 calories must come out of the body's surplus of fat.

In essence, therefore, a hard-boiled egg—like a number of other foods—is what Dr. Humplik calls a "minus-calorie food," in contrast to the "plus-calorie foods."

"A track man," explains the 52-year-old Austrian scientist, who has no intentions whatever of commercializing on his discovery, "will burn up some 50 calories in doing the 100-yard dash—but if a person were to eat four hard-boiled eggs, he would be taking in 320 calories but burning up 368 to digest these eggs—nearly as much as the athlete running 100 yards."

However, a soft-boiled egg requires fewer calories to burn for digesting. Thus, while a hard-boiled egg is a minus-calorie food, a soft-boiled egg is a plus-calorie food. The more one eats minus-calorie

foods, the more reserve fat must be drawn on to digest them—and the more weight will a person lose."

Did Dr. Humplik think that an adult therefore could literally eat his extra pounds away? His answer: Certainly! ("And I'd add three exclamation points after that," he smiles.)

According to the Humplik idea, minus-calorie foods which can be eaten in considerable abundance include most lean cuts of beef, lamb, pork and all chicken — provided these are not fried or rolled in egg batter or crackermeal.

The list also comprises most vegetables (with the exception of corn, potatoes, beans and peas), most fresh fruits like whole oranges and grapefruits, unpeeled apples and pears, strawberries, blueberries and raspberries (with the exception of bananas, pineapples, melon and seedless grapes).

Eating his meals with these foods, a plan which can be followed indefinitely without harm to health or without any lessening of energy, a person will lose weight gradually and never ever feel hungry because he can stuff himself, if he wants.

However, Dr. Humplik warns: a person should never lose more than seven pounds in a given month, and people should consult their family doctors before attempting to narrow an expansive girth.

Around Town

Life of Bridge Depends on Care

If the Johnson-Street bridge is "babied along" it will be good for as long as the city needs it—if not it may have to be replaced. City Engineer James Garnett told aldermen Tuesday.

If such is the case, aldermen agreed, \$42,800 is not too much to spend on it in 1967. Aldermen, who recently decided to take a calculated risk and provide nothing in the budget for snow removal in 1967-68, hedged a little Tuesday and allocated \$1,000 just in case.

Guests jammed the Art Gallery of Greater Victoria for a preview Tuesday night of the Ten Canadians—Ten Decades centennial display.

Mayor Hugh Stephen welcomed guests to the show.

Basic Wage On Way Up

B.C.'s general minimum wage law will rise to \$1.10 an hour June 5, and to \$1.25 an hour Nov. 1.

The minimum wage order issued Tuesday by the B.C. department of labor, confirming previous announcements by Labor Minister Peterson.

The order applies to most male and female employees in the province. There is a lengthy list of exceptions, including employees covered by other orders of the board.

RCMP Save

Fisherman Hangs On

PORT ALBERNI — Victoria fisherman Thomas Nimbley, wearing RCMP clothing, clasped a cup of thick cocoa Tuesday afternoon, and related how hours earlier he had been rescued when his 48-foot trawler Tauslet started shipping water.

"I was about two hours down the Alberni channel when Tauslet hit a submerged dead-head at 4:30 a.m."

Mr. Nimbley said he looked through the forward hatch and water was pouring through a hole in the hull.

GETTING CLOSE
"I thought immediately of getting her as close to shore as possible," he said, "because the depth was about 90 fathoms."

He radioed a distress call which was received by the Port

assembled by gallery director Colin Graham.

The exhibition, made possible through a grant from the national Centennial Commission, will run to May 14.

Thirty hardwood floor layers of Local 257 and six contractors have signed an agreement which provides for a 35-hour week for the floor layers by October 1968.

The present 40-hour week will be reduced to 37½ hours this October and 35 hours in October of 1968.

Wages rose from \$3.13 an hour at the beginning of the month to \$3.98 in October, \$4.15 next April and \$4.45 in October 1968.

Victoria branch of the World Federalists of Canada elected Ranjit Singh Azad president at its annual meeting Tuesday.

Also elected were David Prosser, vice-president; Margaret Hincks, secretary; Lt.-Col. B. V. Fairweather, treasurer, and Geraldine Brown, membership secretary. Dr. E. H. Richardson is past president.

An exchange program with Quebec students will take eleven Victoria high school students to Quebec during July.

Sponsored by the Canadian Council of Christians and Jews, the students will leave July 5.

The Victoria students are: Robin Dudley, Leona Jickling, Jim Alexander, Murray McLeod, Elizabeth Townsend, Judy Robbins, Linda Wilkinson, Joan Davidson, Judy Harold, Barbara Hunter and Margaret Larsen.

Nanaimo students who will also participate are Lee Sloan and Anne McLean.

City, Esquimalt, Saanich, Sooke

How High the Tax?

By A. H. MURPHY
City Hall Reporter

The Victorian who owns a home worth \$15,000 will find his tax bill higher this year by

\$28.80, while the provincial homeowner grant will go up by only \$10.

Members of city council peeled \$226,240 from spending estimates Thursday in a successful effort to keep the general mill rate at the same level as 1966 — 39.3.

But they were unable to do anything about the 4.8 mill increase in the school rate this year. This brought the total school levy to 28 mills and the total to Victorians to 67.3 mills.

CITY'S HIGHEST

The 4.8 mill hike is the highest the city has experienced in the past 12 years. At no time in that period has the increase been more than three mills.

One mill this year will bring \$120,000 in revenue.

The 1967 increase means that the man whose home was worth \$15,000 and assessed at \$6,000 and who paid \$375 in taxes at the 62.5-mill rate of 1966 will face a tax bill of \$403.80 this year.

By squeezing \$226,000 out of 1967 spending estimates of \$16,000,000, as aldermen did Tuesday, they were able to not only keep the general rate constant, but to set up a reserve of about \$100,000 to cope with the tough financial situation which is expected at budget time in 1968.

CONTINGENCY FUND

In addition there will be more than \$6,000 for the city's contingency fund — the fund into which aldermen dip to cover small fiscal crises.

Aldermen sweated over spending estimates in a six-hour session Tuesday. By so doing they hoped to enable city staff to prepare the necessary bylaws setting the tax rate before Thursday when they will be ratified at a formal meeting of city council.

COMPLIMENTED

Members of the police commission who submitted a budget of \$1,029,000 — about \$52,000 above that of last year — were complimented on managing to keep spending estimates down to a reasonable level.

Parks estimates of \$1,669,440 were higher by \$120,000 until aldermen got busy and managed to slice out several large items.

Elsewhere, the average homeowner in Esquimalt will see his taxes rise about \$40 this year, according to Coun. Walter Lock, chairman of the finance committee.

This increase would apply, he said, on a \$15,000 home bringing

Victoria Alderman Pleads Not Guilty

LADYSMITH — Victoria Ald. Geoffrey Edgelow pleaded not guilty Tuesday in magistrate's court here to an impaired driving charge.

Edgelow was charged after being involved in a car accident on Feb. 14 near here.

His case, which has come up several times, was adjourned until June 6.

Magistrate Lance Heard from Nanaimo heard the case.

Host to 60 Hippies

Minow Resigns

VANCOUVER (CP) — The director of Vancouver's leading centre for treatment of drug addicts has resigned and will open a similar institution for treatment of "hippies" and other young people who need help.

Verne Minow submitted his resignation Monday just hours after the centre's board of directors ordered him to tell 60 hippies to be out of the centre by noon last Friday.

"There has to be a place for these people and I am going to start one," he said.

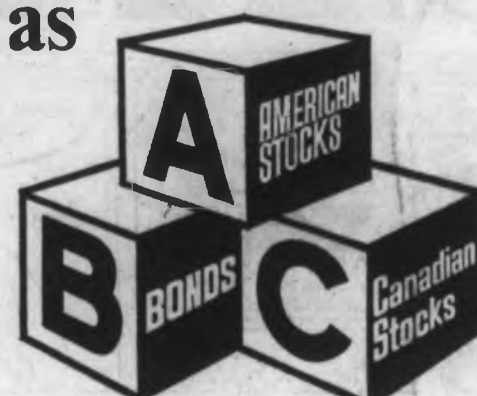

Mr. Minow, himself a former drug addict for 16 years, invited the hippies to stay at the Halfway House centre after they were evicted from a house in Vancouver's hippy district.

Mr. Minow created a flurry of excitement in Victoria last fall when he obtained a lease on a large house at 1715 Rockland, which he intended to develop as a drug addiction treatment centre. But the project, in a residential district, failed to materialize because of protests from the neighbors.

Sunday Concert For Oldsters

A concert for Silver Threads members will be presented in Centennial Square at 2:30 p.m. Sunday, by the Peninsula Concert Orchestra and the Metchoin Choral Group.

Make your investing as easy as

Ask about Royal Trust's Managed Funds

Royal Trust offers a choice of three Managed Funds that enable the modest investor to enjoy the "big portfolio" benefits of broadly diversified holdings. You buy units in any or all of the Funds. Investment in these Funds may be registered as an officially-approved Retirement Savings Plan. And amounts put into such plans are deductible for income tax purposes, within prescribed limits.

No Sales Commission.
No Loading Charge.

If you want a Getaway Car, get the one by Fiat.
You'll laugh all the way from the bank.

A steal. So even on a small budget, you can still get away with it. And you'll be getting a real, honest-to-goodness GT automobile too. Not just a hopped-up puddle jumper. The professional car testers at Track and Traffic magazine called the Fiat 850 GT "a junior Ferrari at one tenth the cost." Here's why: For starters, it's got a little jewel of an engine that gets you from zero to 60 in just

over 17 seconds. Rugged disc brakes up front to give you a firm stop when you want. Luxurious bucket seats and loads of legroom. Padded dash. Racing style steering wheel. Le Mans instrumentation. Trip meter, window washers, and a superb heater when you need it. And four on the floor. A smooth, all-synchromesh transmission. To help you get away. So Ferrari, so good. Oh sure, you can get a big-

ger GT car. But you're going to have to pay a lot more. A big, heavy, GT car will run you anywhere from 3 to 6 grand. The Fiat 850 GT will just run you anywhere. Cheaply. A big GT will give you 12 miles to the gallon. The Fiat 850 will give you 38 miles to the gallon. And with a big GT car, downtown traffic is one big hold up. But with the Fiat Getaway

Car, you've got lots of room to manoeuvre. Better get down to your nearest Fiat dealer right away. Take it for a test drive. Give it all you've got. Then have a talk with your bank manager. And have a few laughs on us.

Colorado

U.S. State Eases Law On Abortion

DENVER (UPI)—Gov. John A. Love, after "thorough soul searching," signed a bill Tuesday giving Colorado the most liberal abortion law in North America. He denied it would make his state an "abortion Mecca."

Radar Plane Crashes

NANTUCKET, Mass. (AP) — Fourteen flames from the belly of a U.S. Air Force radar plane crashed and exploded in the sea Tuesday night, a mile off the Nantucket shore of Nantucket Island.

One survivor of the 16-man crew was taken to the Nantucket cottage hospital.

General's Trip Scored

WASHINGTON (AP) — Senate critics challenged Tuesday the course of American policy in Vietnam and the home-front mission of Gen. William C. Westmoreland. They raised the spectre of a conflict widening into world war. (See also Page 3.)

Senator J. W. Fulbright (Dem. Ark.) said the Johnson administration is trying to slip up the Vietnam war and to look dissent at home with treason.

Senator Stephen M. Young (Dem. Ohio) said Westmoreland was summoned home from his post as U.S. commander in Vietnam "to lobby for further escalation of the war."

"ON TO TREASON"

Fulbright, chairman of the Senate foreign relations committee, said Westmoreland's criticism of Americans who protest against the war is part of an effort "to shut up" dissent.

"They're coming pretty close

Love, a Republican mentioned as a possible candidate for vice-president next year, said it was the most difficult decision of his political life.

"I realize full well that we are dealing in legislation with a matter of supreme importance — that of the reproductive process and with life itself," Love said. "However, I believe that the bill as written contains safeguards and is designed to do something about areas of suffering and abuse which have been of concern to a great many people for a great period of time."

WIDE MARGINS

The former attorney who was elected governor in 1963 in his first try at public office said, "The illegally procured abortion is a matter which concerns all of us."

The bill passed both houses of the Colorado legislature two weeks ago by wide margins, despite threatening letters to legislators, blasting from the governor and pinching outside the state Capitol by Catholic mothers, some carrying babies.

One state senator said it was "a bill against motherhood."

THREE-DOCTOR BOARD

The measure would allow abortions in cases where a three-doctor board in a accredited hospital agreed unanimously that:

● The pregnancy would result in the death of the mother or serious, permanent impairment of her physical or mental health.

● The child would likely be born "with grave and permanent physical deformity or mental retardation."

● The pregnancy resulted from forcible rape or incest and no more than 16 weeks of gestation had passed.

● Girls under 16 become pregnant from statutory rape or incest.

State Senator John Bingham, chief sponsor of the bill in the Senate, said it would help reduce an estimated 5,000 deaths a year in the U.S. from illegal abortions.

The measure has no Colorado residency requirement, meaning women from other states could get an abortion in Colorado if they qualified under the law.

STATE MURDER

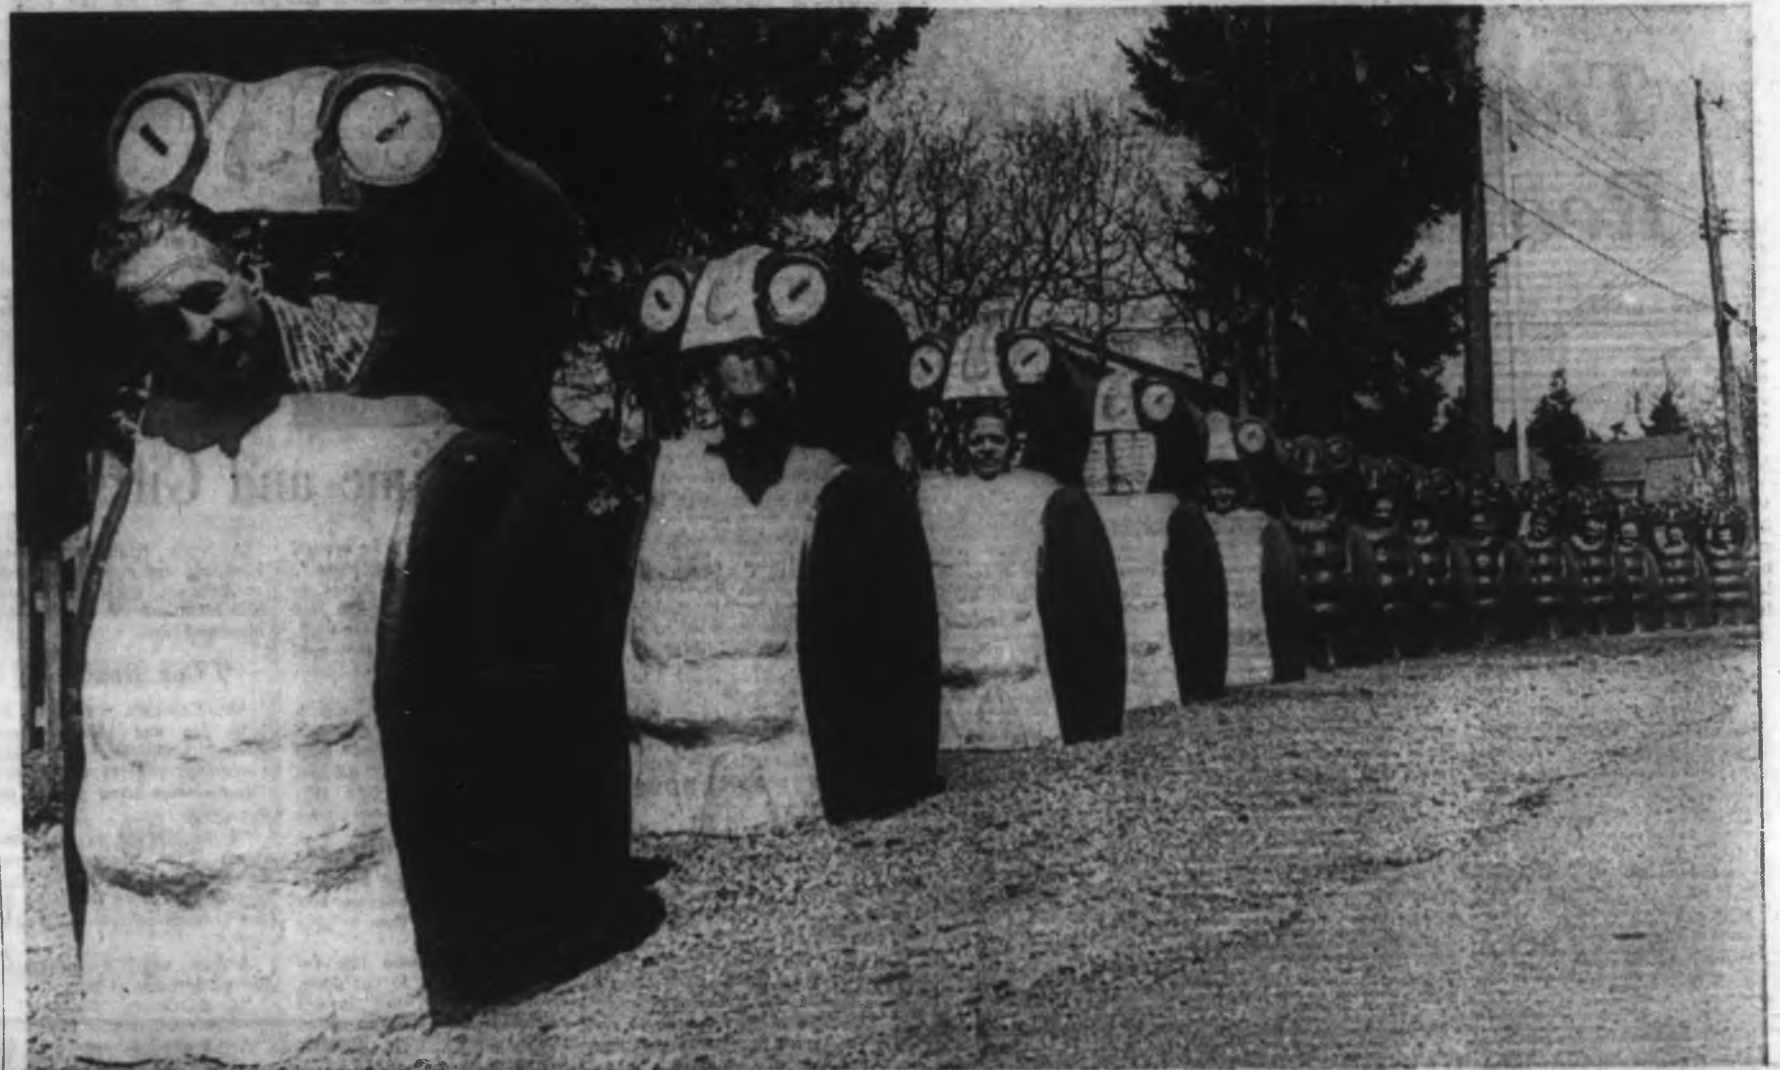

State Senator Vincent Masarik called the bill legalized "state murder." He said it would make Colorado the "abortion Mecca of the world."

Love disagreed. But he said he received about 5,000 letters and telephone calls on the abortion bill, running 3-2 against it.

Riders Escape Flaming Plane

SAN JUAN, P.R. (UPI) — A Caribbean airliner carrying persons skidded off the runway in flames Tuesday night after landing at Puerto Rico's Isla Verde airport on a flight from St. Thomas in the Virgin Islands.

First reports said only four persons were injured. The fire was extinguished within minutes, officials said.

Just Litter Caper

Making like a bunch of purple people eaters are these grinning garbage goblins — but it was just a coffee-break caper by foreman Len Shaw and his staff of 15 at Langford parks branch workshop. Fibreglass waste containers have been in use for about 10 years on highways throughout B.C. — (Jim Ryan)

Hellyer Wins Battle

House Passes Unification Bill

By RON OWLSTON
Ottawa Bureau

OTTAWA — The Commons last night voted 127 to 73 after the government dropped the

guiltoline to unify Canada's three armed forces in an olive-green uniform.

The uniform will be on display next month, and will be worn by

the 185-man guard for visiting heads of state at Expo.

The vote came on the 56th day of wrangling, in the Commons and in committees, over a bill that, according to its critics, buries the honored, blood-spattered traditions of the past.

The critics don't accept Tuesday's Commons decision.

Gordon Churchill, who led the Conservative fight said: "We will continue the battle, during scrutiny of spending by the department of national defence."

He predicted that a future defence minister would reverse the action taken by Defence Minister Paul Hellyer.

Mr. Hellyer, jubilant over the passing of the bill which sometimes seemed to threaten his future in politics, disagreed with Mr. Churchill.

"It wouldn't make any difference who the minister was," he added. "I am sure that the defence staff would advise him to go ahead with the plan."

As the bill finally went through, the blocked in the Commons also crumbled.

MPs will probably start

Little Girl Upsets Marble Price Rise

LONDON (UPI)—A nine-year-old girl, angered by a one-penny increase in the price of a bag of marbles, started a government inquiry that ended Tuesday with a price rollback and a penny refund from the marble manufacturers.

Joanna Wilkinson sent a letter to the Board of Trade last month, complaining that the increase in the price of marbles from six to seven pence a bag was unfair in view of the nationwide freeze on pay and price increases.

Douglas Jay, president of the Board of Trade and a member of the cabinet, started an investigation. The marbles manufacturer apologized and cut the price back to six pence a bag.

The company also sent Joanna a penny's worth of credit. She spent it on candy.

269 Beneficiaries Around World

He's Running Out Of Time and Gifts

By NANCY BROWN

He's almost as old as Canada itself, and his personal way of celebrating his and the country's birthday is by giving money away.

Abraham Gowier was born in Toronto 92 years ago, the son of a Lincolntonshireman and an Irish lass.

His father's name and his grandfather's name was Abraham Gowier. His brothers were Isaac and Jacob.

Lives Alone

He has lived alone in a room in the Yates Hotel for eight years.

A religious man, he has been giving one-tenth of his income to his church since he first started working for \$2 a week as a newsboy, in gait Toronto.

He began his Centennial project last September. It was then that he decided that a tangible appreciation token to church ministers he had known would be his idea of a birthday present to himself.

Three Squares

The idea snowballed in his mind, and on March 29 this year, 269 people from as far away as England and Buenos Aires received gifts of \$1 to \$50.

"I've got enough money left to get myself three square meals a day," said Mr. Gowier.

Abraham Gowier with last few 'Project' bills

Superport Something Else

No Federal Bar For Coal Deal

VANCOUVER (CP) — The federal government isn't likely to block plans by Crown Coal Industries to ship coal from eastern B.C. to Japan even if shipment is partly over U.S. rails, Trade Minister Winters said Tuesday.

The company is negotiating with the CPR and the U.S. Great Northern Railway on shipping prices, with Great Northern having quoted the lowest price to date.

"Naturally, we would like to see it done in a way that would best benefit Canadian employment and industry," said Mr. Winters.

"But if the only reasonable way is over a U.S. line, we would have to look at it."

SUPERPORT

Part of the Japan deal is inclusion of construction of a superport at Roberts Bank, 20 miles south of Vancouver, to handle huge bulk carriers.

"The superport could be operating in 18 months from the time we sign a contract," Mr. Winters said. "But the contract will fall through if the proposed port doesn't go ahead."

NO COMMENT

Mr. Winters said he would not comment on whether he favored the B.C. government's plan for a superport. He said that would be a subject for the federal transport department to deal with.

U.S. Reviewing Aid to Greece

WASHINGTON (UPI) — The United States sought Tuesday to help young King Constantine force the military-backed regime in Greece to restore constitutional government.

The state department said the large American military aid program to Greece was placed "under review" after the Friday coup in which a junta of colonels took over and installed Constantine V. Kollias as premier.

This wording usually is used when the United States seeks to warn a government seizing power that its future assistance from this country may depend

upon the degree of its reversion to democratic principles.

The state department's declaration accompanied private efforts being made by U.S. Ambassador Philip Talbot in Athens to encourage a more moderate course by the Greek military.

Talbot has told the new regime that a rigid right-wing dictatorship would have an extremely adverse effect on American and most other world opinion.

State department press officer Robert McCloskey said U.S. military assistance to Greece during the year which ended last June 30 totalled \$78,800,000.

Officials pry at Larose (on top) and Conacher

Another One-Hitter

Pitchers in Command

Major league baseball got in a full schedule of games for the first time this season yesterday, and it featured exceptional pitching.

There was a one-hitter, a two-hitter, a four-hitter and four five-

hitters. They produced three shutouts and five one-run jobs as eight of the 20 starting pitchers went the distance.

The gem was the one-hitter turned in by southpaw Al Jackson of the St. Louis Cardinals, who regained the National League lead by handing Houston Astros their ninth straight defeat, 4-0.

Jackson, obtained last season from the New York Mets, pitched seven hitless innings, lost his no-hit bid when Bob Aspromonte led off with a line single in the eighth inning.

ROOKIE DID IT ALL

Rookie Tom Seaver of the Mets was almost as good in a 10-inning, 2-1 victory over Chicago Cubs.

Seaver had a 1-0 shutout with two out in the ninth inning when shortstop Ken Harrelson booted an easy ground ball to allow the tying run to score. But Seaver led off in the 10th with a single and completed the circuit on a sacrifice bunt, a wild pitch and Al Luplow's single to plate the winning run.

MARITAL IN FORM

Cincinnati Reds were knocked out of the lead when they ran up against Juan Marchand, who had lost his first three decisions. The San Francisco right-hander was in top form as he breezed to a 6-1, route-going victory.

CUP CHANCE

Cup final will be played on Sunday at Fenway Avenue Park starting at 2 p.m.

Cup Chance For Celtic

PRAGUE (Reuters) — Glasgow Celtic became the first British soccer club to qualify for the European Cup final by playing Dukla Prague of Czechoslovakia to a scoreless tie in their second-leg semi-final here today for a 3-1 aggregate victory.

Celtic will meet either Internazionale of Milan or CSKA Sofia in the final in Lisbon May 25. Inter and CSKA meet in the second leg of their semi-final in Sofia Wednesday night. They drew 1-1 in the first meeting in Milan last week.

Captain Gets 12 Goals; Aussies Lose

NEW WESTMINSTER — Captain Brian Griffin scored 12 goals last night but the touring Australian field lacrosse team were beaten, 21-17, by an all-star team from the Inter-City Lacrosse League.

The Australian team is en route to the Canadian Centennial Field Lacrosse tournament in Toronto next month.

It was the first field lacrosse for many of the B.C. team, which used box lacrosse equipment. Gordie Gungah and Paul Parnell each scored four goals for the winners. Fred Cusack had three and Bill Gray, the only Victoria player, and Mike Gates each scored twice.

Pulford Sudden-Death Hero Leafs Grab 2-1 Series Lead

By DAVID MILLER

TORONTO (CP) — Bob Pulford's goal at 8:26 of the second sudden-death overtime period Tuesday night gave Toronto Maple Leafs a 3-2 victory over Montreal Canadiens in the third game of their Stanley Cup final series.

The Leafs now lead the best-of-seven series 2-1 with the fourth game scheduled Thursday night in Toronto's Maple Leaf Gardens.

Peter Stelmowski and Jim Pappin got the other Toronto goals and Jean Beliveau and John Ferguson scored for Montreal.

Goalkeeper Johnny Bower was a standout for the Leafs, who outlasted the tiring Canadiens in

the second of the 20-minute overtime periods.

Bower kicked out 60 shots and kept the Leafs in the game during the first overtime. He was brilliant in the nets, stopping hard drives from Yvan Cournoyer and Jean Beliveau.

The Canadiens nearly scored six times in the first overtime and the Leafs threatened twice on hard drives. Then both teams got tired and the play became sloppy.

NOT A RECORD

The game, which lasted one hour, 28 minutes, 26 seconds, was well off the Stanley Cup record of two hours, 16 minutes and 30 seconds.

It was a frustrating loss for the Canadiens who had the Leafs on the ropes several times during the game but couldn't find the key to Bower's cage.

Rogation Vachon was also good in the Montreal nets, stopping 51 shots.

Pulford got his goal on a pass from Pappin who relayed the puck from Stelmowski to the edge of the goal crease. Pulford slapped it into the open side to Vachon's right.

The first period was filled with fast, exciting hockey and neither team wanted any time getting started.

Defenceman Tim Horton of Toronto went off for interference just past the one-minute mark and the Canadiens wheeled out their power-play.

But goaltender Johnny Bower of Toronto kept them at bay, making good saves on two hard slapshots from J. C. Tremblay.

BELIVEAU SCORES

Then Beliveau took a goal-mouth pass from Bobby Rousseau and made it 1-0 for Montreal with a close-in drive.

Bower never saw the shot, which went by him on the open right side.

The goal was Beliveau's fourth of the playoffs, but it fired up the Leafs and they started to put the pressure on Montreal goalie Rogation Vachon.

Stelmowski tied the game at the 8:33 mark, tipping in Larry Hillman's sizzling slapshot from the point. John Ferguson was in the penalty box for the Canadiens and Toronto scored 25 seconds after he went off.

EFFECTIVE WEAPON

The Leafs power-play, an effective weapon in their semifinal series against Chicago Black Hawks, had the Canadiens off balance from the time Ferguson left the ice.

It took the Leafs just four passes to get the tying goal—Bob Pulford to Jim Pappin to Hillman to Stelmowski.

Vachon appeared to get his stick on the puck, but it glanced off and went in the left corner.

The last 10 minutes of the period turned into a checking contest and each team drew a minor penalty.

Bower received a tripping penalty at the halfway mark and rookie centre Mike Walton served it for him. The Canadiens could not capitalize on

their advantage and Walton came back on to break in, but Vachon made the save, coming 13 feet out of his net to cut down the angle on Walton's slapshot.

The Leafs controlled the play in the second period, using hustle and muscle to keep the Canadiens off balance. But some spectacular goaltending by the rookie Vachon made the difference and the period ended in a 2-2 tie.

FIGHT BREAKS OUT

In the muscle department, rookie forward Brian Conacher of Toronto tangled with right winger Claude Larose of Montreal at the six-minute mark.

Conacher, who stands six-foot-two and plays with contact lens, checked Larose into the boards and seconds later they both started hitting each other.

Both players fell to the ice

and when the referee and linesmen finally stopped the fight, Larose was bleeding from a gash in his forehead. Both got five-minute fighting majors and Larose received seven stitches but returned to the ice later in the period.

Conacher connected with a long, hard overhand right that stunned Larose.

Pappin made it 2-1 for the Leafs when he beat Vachon with a backhand shot at the 10-minute mark.

Seconds before, the Montreal goalie stopped Hillman's hard shot from the point but lost the puck in a tangle of players.

Horton came up with it and passed to Pappin who slid it under Vachon for his fifth goal of the playoffs.

The Leafs never stopped pressing after the goal, but Vachon held them off. Then with just 50 seconds to play, Ferguson tied the game on a quick

goal from a faceoff in the Toronto zone.

Ferguson took the puck off Steve Kozak's stick and slammed it past a surprised Bower on the short side. The Toronto goaltender never made a move on the play.

The pace slowed in the third period, but the Canadiens had a slight edge in play. The Leafs seemed to tire and Walton was called on to spell centre Red Kelly several times.

BIG JEAN FOILED

Bower made some fine saves, stopping Beliveau on several hard drives near the end of the period.

Dave Keen was a standout for Toronto and nearly won the game on a breakaway with five seconds to play in the third period. But his slapshot from 20 feet hit the goalpost.

Soccer Change Sought

LONDON (AP) — The English Football Association

proposed that a soccer team be allowed to use two substitutes in every game whether players are injured or not.

It also advocated that changing the goalkeeper be prohibited in the penalty area.

The proposals are to be sent to the international board of the World Soccer Federation.

Both represent a complete reversal of the position England always has taken.

For years, English players have annoyed foreign teams by charging the goalkeeper when he held the ball and the Football Association has argued that it's part of the rules.

Until last season, the association held out against all substitutes. Now teams in both the English and Scottish leagues are allowed one substitute who has to be named before the start of a game.

Up-Islanders On Target In Trap Meet

Nanaimo Fish and Game teams dominated the second trap shoot of the Vancouver Island Shooting League season Sunday winning the "A" and "C" handicap events.

Shooting at the Goldstream range, John Gilmour of Nanaimo was top gun with 65 out of a possible 74. Albert's Norm Young won the "A" event with 64. Ted Gottfried of Campbell River the "B" with 61, and George Webber of Campbell River the "C" with 58.

Only Victoria winner was Mark Campbell who scored 56 in the "D" event.

Leafs' Old War Horses 'Better in Longer Race'

TORONTO (CP) — Toronto

Maple Leafs weren't nearly as tired after one hour, 28 minutes and 26 seconds as many expected Tuesday night.

"We trained all year for this," coach Punch Imlach said. "I thought the club was getting stronger as we went along."

Frank Mahovlich said the Leafs "seemed to pick up momentum as the overtime progressed."

Ron Ellis agreed. "We missed a lot of chances. I missed a lot before the overtime even started but you just have to keep shooting and hope they'll go in."

Team captain George Armstrong, 36, said he felt tired.

"But you always keep going. You get yourself up for the game and you stay with it until it's over—win or lose. Afterwards, you feel tired. It'll be worse tomorrow."

Bob Pulford, who scored the winning goal to end the game in the second overtime period, said:

"I had the whole net to shoot at. He (Montreal goaltender Rogation Vachon) was still on the other side of the net."

"Peter (Stelmowski) cleared it out to Jimmy (Pappin) and I don't know whether he saw me or not, but anyway he knew I should be there and he laid it right on my stick."

Pulford said it was probably the greatest "goal of my life."

The Canadiens dressing room was like a tomb.

Toronto's Allan Stanley in the second overtime period, sat with his head drooped between his knees.

The club physician and physiotherapist were still attempting to get Richard's breathing back to normal.

"No he isn't injured. He just had the wind knocked out of him," Dr. D. G. Kaneer said. "He'll be all right in a few minutes."

LINESMEN BLAMED

Claude Larose, who picked up a major penalty as well as a seven-minute out of his forehead in a second period bout with Brian Conacher, blamed the linesmen for the injury.

"I put him (Conacher) on the boards and he came off swinging at me," Larose said. "When I let him go as the linesmen stepped in Conacher clipped me, a good one. I never had trouble with him before."

Cassius Gives It One More Effort

HOUSTON, Tex. (AP)—Lawyer for Cassius Clay asked a federal judge Tuesday to stop the heavyweight champion's scheduled induction Friday into the armed services on grounds that he is a minister of the Muslim faith.

A 67-page petition was filed with Judge Allen B. Hanney just before the Supreme Court rejected the second time, earlier pleas to stop the induction order that was transferred to Houston after originating in Louisville, Ky.

The petition seeks a stay of

all actions pending a hearing on its merits.

Hanney gave no indication at once as to when a hearing might be held.

Hayden Oxwington, Clay's New York City lawyer, said the Houston petition could be the start of the final round in the long court battle. Failure of the action would mean it would be up to Clay to decide what he will do Friday.

Clay also known as Muhammad Ali, has said he will not take the oath or wear an army uniform.

JOE FARAGALLI, knee crash at Villanova University since 1962, has been signed as assistant-coach of the Winnipeg Blue Bombers. He will serve under Don Zaleski, who replaced Red Grant, who was a player moved to Minnesota ... Gary Fitzpatrick, a 250-pound Canadian tackle who has been at University of Idaho for the past four years, has been signed by Calgary Stampeders ... Barry Mitchellson, 24-year-old Canadian end who starred for Edmonton Eskimos, has retired from football to take a teaching and coaching job at the University of Alberta ... Jerry Bradley, 21-year-old end from the University of California, has been signed by the Toronto Argonauts.

DICK RADATZ, a huge right-handed relief pitcher was obtained by Chicago Cubs yesterday from Cleveland Indians in exchange for Cleveland pitcher to be named later ... Cool Reception, only Canadian horse nominated for the Kentucky Derby, may not run in the three-year-old classic. A poor workout yesterday has trainer Lou Cavallaro doubtful about his charge's ability ... Fred Larocense, biggest money-winner in the history of stock-car racing, has announced his retirement. The 35-year-old former carpenter's helper earned about \$500,000 in his racing career. The world middleweight championship fight between champion Nino Benvenuti and ex-champion Emile Griffith, scheduled for July 13, may be postponed. Benvenuti has to undergo plastic surgery on his nose which would force a month of inactivity ... In Reality, winner of the Florida Derby, has been declared out of the Kentucky Derby.

Remote Areas

Postal Aid Near

CAMPBELL RIVER — Postal services to more remote areas of Vancouver Island will be improved at the start of May.

The announcement was made this week in Vancouver by postal officials, only a few days after Campbell River Hospital administrator Arthur Lightfoot complained present services were endangering people's lives.

The post office here closes at 4:30 p.m. — 1½ hours earlier than it used to.

ALTERATIONS
The local postmaster said the change was made necessary by an alteration in the CPR ferry timetable from Nanaimo.

"Samples of electrocardiographs taken after 2 p.m. do not catch that day's mail and this means a 24-hour delay and the possible endangering of patients' lives," he said.

IN OTTAWA
The chamber of commerce here wrote to the Postmaster General's Department in Ottawa complaining of the present system.

Under the new schedule, all mail will be transported by plane from and to:

● Campbell River and Kyquoot Air Stage Service, serving Tahsis, Esperanza, Zebalos, Fair Harbor and Kyquoot.

● Campbell River and Simoon Sound A.S.S., serving Port Neville, Minstrel Island, Simoon Sound and Kingcome Inlet.

● Port Hardy and Provincial Camery A.S.S., serving Sullivan Bay, Allison Harbor, Nalos Landing, and Provincial Camery.

● Vancouver and Boat Basin A.S.S., serving Ahousat, Hot Springs Cove, Estevan Point and Boat Basin.

Hunting Dog Sparkles

CHEMAMUS — A local Westmaraner hunting dog has won a top award in a Kerrisdale dog show—the first Canadian-raised dog of that breed to do so.

She is Kurpfalz Herzogin Hermia, bred by Dr. and Mrs. H. K. MacKinnon who own a Chemamus kennel.

The dog was awarded the distinction of Best Canadian Bred dog in show at the Kerrisdale Kiwanis dog show at the weekend, in which animals from the U.S. also competed.

Advisory Panel Formed

DUNCAN — An advisory youth panel, composed of volunteer auxiliary social workers, recently began here.

Panel members will guide, advise and help in any way possible to rehabilitate young people referred to them by the courts, churches and schools.

The project is being sponsored by the North Cowichan Family and Children's Court.

The panel is the first of its type in the Duncan area.

The voluntary social workers hope to find accommodation and employment for young people referred to them.

Similar to the Big Brother movement, the advisory youth panel will use mature adults to provide personal friendship and encouragement.

Regional College

Delay Sparks Ney

By ARNOLD OLSON
NANAIMO—The regional college delay has prompted Frank Ney to join the ranks of those who would like early approval from the government to allow a plebiscite.

Mr. Ney, who ran as the Social credit candidate against Dave Stupish in the last election, says he is going to urge the government to approve the holding of a plebiscite for the college.

"The nine school boards in the region have had a series of meetings and have reached a unanimous agreement on a brief for establishment of a regional college."

The cost of \$14,000,000 will, with grants, probably result in

costing the area only \$3,500,000. These nine school boards deserve great credit for the work and energy in preparing the brief, he said.

"I'm going to urge the holding of a plebiscite on as early a date as possible," he said.

BUILDING COST
He said that economists have indicated a substantial increase in building costs within the next five years.

For this reason, he indicated, any further delay could cost the taxpayer more than necessary. However, the development of the college, could, he said, result in a great saving to the people of Vancouver Island.

It could mean that people who normally would not be able to get further education would be afforded the possibility with the college, due to its proximity.

Proponents of the college have referred to the benefits as being almost limitless.

Aids to industry in the area could be one major contribution, they have stated.

The college could work in tandem with many of them, notably the biological station and the pulp industry.

TOWN AID
The college could also aid the community in raising the educational level of people now in dead-end jobs, or those whose jobs are threatened by automation.

Dr. Roy McMillan, regional college co-ordinating committee chairman, said no word had as yet been received by him on the college.

"I'm very pleased with Mr. Ney's statements," he said.

Two Live Through Nightmare

NANAIMO—A nightmarish level crossing accident about noon Tuesday, totally demolished a car, but left the occupants relatively uninjured.

Mrs. Agnes Greer, 40, and her four-year-old son Malcolm were in the car, according to hospital authorities.

The wife of Nanaimo lawyer Doug Greer, she suffered head, chest and spinal injuries, while the boy had only cuts and bruises to his head.

Her car struck an E & N dayliner in the centre, and bounced 50 feet before coming to rest in a ditch on the Northwest Bay Road.

The car door had to be pried open to get the pair out.

Strachan Granted Meeting Request

PORT ALBERNI — The city council has granted a request from Bob Strachan, leader of the opposition, for an NDP caucus meeting to be held in city council chambers May 13.

Mr. Strachan explained that meetings were planned for various cities in B.C., and asked permission for the first to be held here.

Ald. Garnet Reynolds moved permission be granted saying,

"If a cabinet meeting can be held here, why not the opposition?"

Ald. Ron Lyon concurred, pointing out that the opposition is a recognized part of government.

Reference to the cabinet meeting refers to hopes that the cabinet will meet in the Twin Cities as part of the special amalgamation ceremonies next October.

Curling Club Asking For Council Support

NANAIMO — The request by the Nanaimo Curling Club for an acre of property at Exhibition Park has drawn comment from J. J. Alexander.

He referred to the city's willingness to spend \$250,000 on the museum tourist bureau, and said if Ald. Parker and council would be as enthusiastic about the curling club's proposal, it would be of merit.

He said a similar amount would be spent, although the club did not intend to ask support of the city, but would raise the money itself.

Ald. Parker answered, "I can't just say, here's an acre of property, go ahead."

He said, as chairman of the properties committee, the club's proposal would be accepted, if a government for maintenance of the property was made.

He said he would support the idea if some assurance for upkeep was firmly committed.

Ald. Ted Baraby said much the same thing, adding, "We can't just say, here's an acre of property, go ahead."

He said, as chairman of the properties committee, the club's proposal would be accepted, if a government for maintenance of the property was made.

Micro-Mikes Finally on Council Band

By MARY TAYLOR
PORT ALBERNI — Recent comment at city council during a discussion on traffic safety brought a letter of protest from the Micro-Mikes, a group of radio enthusiasts who use their citizens band radios for the benefit of the community.

At council two weeks ago, it was stated some of the

speakers who make life miserable for the rest of the citizens appeared to be evading speed traps set by RCMP by using two-way radios to warn fellow-offenders which areas were under surveillance.

At Monday night's meeting, the Micro-Mikes' letter said that while they did not believe council intended reflection on

their club, they did feel that the implications regarding two way radios was regrettable.

"It has cast a shadow on club members," the letter stated, "despite a fine record of community service. The club has assisted RCMP and Search and Rescue members at Halloween, supplying nine mobile units for the job, has marshalled and helped direct

two parades in downtown area, directed traffic at accident scenes, works with the Search and Rescue group on rescue details, has undertaken delivery of the radio bingo cards to aid the senior citizens fund, and made itself useful in many ways."

The group also offered its help in monitoring the locating those who are using radios

to the detriment of the community. Council will acknowledge the letter, with the assurance that no reflection on the club was intended. The trouble-makers are apparently using a walkie-talkie setup, while the club uses expensive citizen band radios, and has some RCMP personnel among its club members.

The club has assisted RCMP and Search and Rescue members at Halloween, supplying nine mobile units for the job, has marshalled and helped direct

Island Committee Slogan

Keep Province Clean!

COURTENAY — The Comox Valley Anti-Pollution committee has suggested to the department of tourism that a massive, province-wide anti-litter campaign be instituted to keep B.C. beautiful.

They suggest citizens should be educated not to litter highways, beaches, food places, parks and streams. The committee secretary, Mrs. M. Buchanan, states, "Constant publicity might make people aware of the dangers and ugliness of the spreading

contamination by junk and litter in B.C.'s outdoors."

According to the committee, Dan Campbell's reply to a brief on pollution was not encouraging. The minister's reply to concern expressed over the use of Georgia Strait for sewage and industrial waste disposal was that, "The Pollution Control Board has regulatory power to keep the Strait of Georgia from becoming dangerously polluted."

The Courtenay committee

has decided to enlarge its membership in an effort to have a more interested and informed public. The chambers of commerce, game clubs, the District 11 Electors Association and several outdoor clubs are currently represented, but student groups, other district organizations and interested individuals are asked to join now.

The next meeting of the committee will be held May 4 at the home of Dr. D. Coleman, Comox.

Society May Help

Low-Cost Housing Stays Lively Issue

By KLAUS MUEENTER

DUNCAN—Because the city of Duncan does not have enough land, a low-cost housing scheme is out, at this time at least.

However, city council will invite representatives from Western Co-operative Housing Society to hear their story.

Mayor Jack Dobson said Monday night, "We have the services available and if our extension of boundary application is successful we may be able to make a contribution."

In a letter, Rick English of Nanaimo, president of the society, told council his non-profit agency will help moderate income families obtain decent housing.

HUMAN NEED

"The society recognizes the instinctive basic human need for home-ownership and that by giving people responsibility within their ability, responsible citizens are developed."

Mr. English pointed out himself in the annual income range from \$3,500 to \$7,000 sometimes find it difficult to assemble ready cash for down payment.

SOME PRESSURE

"Co-operative housing takes some of the pressure off the municipalities in regard to public housing by accommodating incomes as low as \$250 a month, but it is not meant to compete with, or totally replace, public housing."

Mr. English said his society needs large enough tracts of land at the going rate but fully serviced by utilities.

"We feel any project of this size should be planned in keeping with the city's overall community plans for development."

RURAL PLAN

Mayor Dobson said a low-cost housing scheme could possibly be considered under the rural renewal plan.

The proposed boundary extension by the city also was aired when council discussed a request for bulk water sale from Eagle Heights waterworks.

Council members agreed to wait for the outcome of the plebiscite on boundary extension because Eagle Heights is one of the areas which would become part of the city.

WATER SERVICE

Then water services would be provided automatically. The mayor said, "In the past we have never refused anybody but we also must consider the investment of our taxpayers."

In other business, council also:

● Agreed to meet with North Cowichan council next month;

● Granted permission to the local army cadets to use the civic parking lot for their annual inspection, May 18, and hold a tag day in June;

● Instructed chief administrative officer Gordon Barry to call for plans and specifications for the city's centennial project, which will be a fieldhouse at Wharmcliffe Park, to cost between \$15,000 and \$20,000 as proposed by the city's recreation commission.

It's Debenture-Time As Southend Cheers

NORTH COWICHAN — One of the last steps towards a water system in the Southend of the municipality was made Tuesday afternoon when council opened debenture tenders.

The total sum involved is \$115,000 for the system which will serve more than 500 houses.

Three bids were returned to the finance committee for consideration and action. Bids were submitted by

Pemberton Securities, 92.72 per cent on each \$100, not guaranteed; A. E. Ames, 95.39 per cent, guaranteed, and 91.94 per cent not guaranteed; McLeod, Weir Company Ltd., 95.91 per cent guaranteed, and 93.46 not guaranteed.

The guarantee has to be approved by the provincial government.

Tenders for the work on the system will be called next month and completion target date is mid-summer.

RCMP Save

Fisherman Hangs On

PORT ALBERNI — Victoria fisherman Thomas Nimbley, wearing RCMP clothing, escaped a cup of thick coot Tuesday afternoon, and related how hours earlier he had been rescued when his 48-foot trawler Tumbler started shipping water.

"I was about two hours down the Alberni channel when Tumbler hit a submerged dead-head at 4:30 a.m."

Mr. Nimbley said he looked through the forward hatch and water was pouring through a hole in the hull.

GETTING CLOSE

"I thought immediately of getting her as close to shore as possible," he said, "because the depth was about 50 fathoms."

He radioed a distress call which was received by the Port Alberni RCMP which dispatched the boat Ganges, and by Bam-

field Lighthouse, which sent a fisherman Thomas Nimbley, wearing RCMP clothing, escaped a cup of thick coot Tuesday afternoon, and related how hours earlier he had been rescued when his 48-foot trawler Tumbler started shipping water.

Victoria Alderman Pleads Not Guilty

LADYSMITH — Victoria Ald. Geoffrey Edgewood pleaded not guilty Tuesday in magistrate's court here to an impaired driving charge.

Edgewood was charged after being involved in a car accident on Feb. 14 near here. His case, which has come up several times, was adjourned until June 6.

Magistrate Lance Heard from Nanaimo heard the case.

'I Used to Talk To Australia'

SHAWNIGAN LAKE — Bus salesman, professional or mill worker — anyone can be a ham radio operator.

President of the Cowichan

Valley Ham Radio Club R. F. Stephenson, Rentfrew Road, has been interested in ham radio operation for 12 years.

A ham operator must pass a stiff examination and be proficient in Morse code.

"Hams pass traffic [messages] all over the world. In times of disaster they provide communication that cuts all red tape."

"Anything a ham does is for free."

"I used to talk to a sheep herder in Australia," he said. "There are no barriers, no prejudices in ham radio."

"You never know whom you are talking to just his call letters."

"You know what country he's from but you don't know his prejudices," said the quietly-spoken Anglican minister.

Mud Hole Today, Beauty Spot Tomorrow

This mud hole is in the Nanaimo area, at the Island Highway junction connecting the B.C. Ferry terminal and Departure Bay Road. However, shortly the mud hole will be a beauty spot, with more than

\$3,000 worth of shrubs being planted by department of highways crews. The shrubs will be planted in the centre of a traffic island and among the species will be the early-spring-blooming shrub forsythia.

Ship Like Metallic Anthill

Beacon Hill Lights Up in Port

PORT ALBERNI — More than 4,000 persons toured through HMCS Beacon Hill during a centennial fleet visit to Port Alberni last weekend. Lieut.-Cdr. Sid Gould, Victoria, commanding officer, said his ship "looked something like a metallic anthill" at the peak period of the friendly invasion. Through Saturday and Sunday

afternoons, adults and youngsters by the hundreds swarmed aboard the veteran ocean escort to explore every nook and cranny of the ship. Port Alberni's Mayor Les Hammer described the Beacon Hill's visit as "a memorable highlight of the Alberni Valley's Centennial celebrations."

Gould is also a magician of no mean talents added considerably to the success of the ship's visit. At a host of functions — both official and social — he appeared with his bag of tricks. And a fancy looking deck of cards.

There's a rumor sweeping the Alberni Valley claiming the veteran naval officer won the ship in a poker game. The Beacon Hill left the West Coast port early yesterday morning and returned to Esquimalt.

Crofton's Pulp Workers Reach Safety Milestone

CHEMANUS — The members of Local 2 of the Pulp and Paper Workers of Canada, Crofton, have achieved an accident-prevention milestone.

According to Jack Gallagher, personnel manager of Crofton pulp mill, the members reached the important plateau last Friday, having completed a total of 500,000 man-hours of exposure without a compensable injury.

"This significant achievement involved 640 employees

in the maintenance and pulp operations of the mill working safely for a five-month period," the personnel manager pointed out.

"In the newspaper operation of the mill an equally impressive record has been set in which the employees of this area have worked since start-up, nearly three years ago, with only two time-loss injuries.

"The major contributing factor to the successful accident prevention program at the B.C. Forest Products Limited's Crofton operation has been the direct involvement and interest taken in accident prevention by the executives of both unions.

"In 1965 the accident prevention supervisor, together with the Pulp and Paper

Workers' union safety director, revamped the safety committee approach by creating a number of area safety committees responsible for a much-increased interest in accident prevention and has achieved very gratifying results.

"The B.C. Safety Council will be presenting an award for the 500,000 hours' achievement," Mr. Gallagher concluded.

Seagulls Like People

FULFORD — Things that human beings don't know about come out in the most unexpected ways and places.

Mrs. A. McManus Sr., who lives near the Fulford docks, tells of a Sunday morning episode that was witnessed by herself and her husband for a good 10 minutes or more — and that was the struggle of a seagull to get help to free her from too large a crab stuck halfway down her gullet.

The gull landed in the McManus front yard and other sympathetic but unhelpful gulls gathered around, gazed at the struggles of the choking gull but left the scene without rendering first aid.

Then along came a small brownish-grey gull and he strutted up to the suffering gull, grabbed hold of the protruding crab legs and started pulling.

For 10 minutes, says Mrs. McManus, the gulls braced their feet and tugged, this way and that. They yanked and pulled, unaccommodating crab and the unaccommodating crab and the two gulls flew off.

And the crab? That's a bonus bit of fertilizer for the McManus vegetable patch.

The McManuses are still marvelling at the ways of nature.

Vocational Students Win Over Favored Ontario

By ARNOLD OLSON

NANAIMO — Four B.C. students have beaten Ontario and taken a trophy from there that has never been out of that province.

The instructor, John Barman, says he intends to keep it in B.C. from now on, and intends to go after the other trophy next year.

Mr. Barman and his students, Hans van Diemen, Stewart Jenkins, Dave Klein and Ed Underwood worked 31 hours without stop, and completed their display with only 10 minutes to go.

BEST CREATION
The trophy for the best creation in the student competitions at the centennial culinary competitions was the delight of those in attendance in the Royal York Hotel.

They had kept secret, until

the last possible moment, April 15, their plans, and managed to surprise all competitors. The best complete food display competition was not entered, because of the huge amount of work needed, to produce pastries, sandwiches and other specialties.

BASTION REPLICA
However, Mr. Bateman said, "Now that we know what is required for a complete display, we will enter that area next year and bring back both trophies."

The students presented Toronto's Mayor William Denison with a replica of the Bastion. He expressed interest in, and intends to visit Nanaimo.

"I could not have asked for a better team to take to the competition; they worked hard, long hours and demanded perfection from each other on all

their entries," said Mr. Bateman, who has always expressed pride in his classes at Nanaimo's vocational school.

He expects that now the competitions will be stiffer, with the trophy out of Ontario, but is confident the B.C. culinary team from the VTS will rise and surmount the opposition.

Klondike Beards

LAKE COWICHAN — More than 700 people, many in costume, enjoyed a Klondike night dance in the community centre, here. The evening of gaiety was sponsored by Lake Cowichan Klansmen.

One of the main attractions was a judging of a beard-growing contest. Winner of this event was a smiling Bud Lawson. The man with the scrappiest growth was Stan Frances.

Retired Engineer Dies

CHEMANUS — A resident of this district for 27 years, Mrs. Leroy Schluter, died in his home on Cottonwood Road Sunday.

Born in Union County, Ontario, Illinois, he came to Canada 60 years ago. He was a locomotive engineer

until he retired. He was 82 years old.

Mr. Schluter is survived by his wife Agnes, two sons, four daughters, 22 grandchildren and eight great-grandchildren.

Funeral services were held in Chemainus United Church Tuesday, Rev. L. C. Hooper officiating.

If you want a Getaway Car, get the one by Fiat.
You'll laugh all the way from the bank.

A steal. So even on a small budget, you can still get away with it. And you'll be getting a real, honest-to-goodness GT automobile too. Not just a hopped-up puddle jumper. The professional car testers at Track and Traffic magazine called the Fiat 850 GT "a junior Ferrari at one tenth the cost." Here's why: For starters, it's got a little jewel of an engine that gets you from zero to 60 in just

over 17 seconds. Rugged disc brakes up front to give you a firm stop when you want. Luxurious bucket seats and loads of legroom. Padded dash. Racing style steering wheel. Le Mans instrumentation. Trip meter, window washers, and a superb heater when you need it. And four on the floor. A smooth, all-synchromesh transmission. To help you get away. So Ferrari, so good. Oh sure, you can get a big-

ger GT car. But you're going to have to pay a lot more. A big, heavy, GT car will run you anywhere from 3 to 6 grand. The Fiat 850 GT will just run you anywhere. Cheaply. A big GT will give you 12 miles to the gallon. The Fiat 850 will give you 38 miles to the gallon. And with a big GT car, downtown traffic is one big hold up. But with the Fiat Getaway

Car, you've got lots of room to manoeuvre. Better get down to your nearest Fiat dealer right away. Take it for a test drive. Give it all you've got. Then have a talk with your bank manager. And have a few laughs on us.

U.S. State Eases Law On Abortion

DENVER (UPI)—Gov. John A. Love, after "thorough soul searching," signed a bill Tuesday giving Colorado the most liberal abortion law in North America. He denied it would make his state an "abortion mecca."

Radar Plane Crashes

NANTUCKET, Mass. (AP)—Fearing flames from its belly, a U.S. Air Force radar plane crashed and exploded in the sea Tuesday night, a mile off the Nantucket shore of Nantucket Island.

One survivor of the 18-man crew was taken to the Nantucket cottage hospital.

General's Trip

Scored

WASHINGTON (AP)—Senate critics challenged Tuesday the course of American policy in Vietnam and the home-front mission of Gen. William C. Westmoreland. They raised the spectre of a conflict widening into world war. (See also Page 3.)

Senator J. W. Fulbright (Dem. Ark.) said the Johnson administration is trying to step up the Vietnam war and to link dissent at home with treason.

Senator Stephen M. Young (Dem. Ohio) said Westmoreland was summoned home from his post as U.S. commander in Vietnam "to lobby for further escalation of the war."

Fulbright, chairman of the Senate foreign relations committee, said Westmoreland's criticism of Americans who protest against the war is part of an effort "to shut up" dissenters. "This criticism of dissent will then lead to charges of disloyalty and then to muddle-headedness and then to treason," Fulbright said the Senate.

"They're coming pretty close Continued on Page 2

Love, a Republican mentioned as a possible candidate for vice-president next year, said it was the most difficult decision of his political life.

"I realize full well that we are dealing in legislation with a matter of supreme importance that of the reproductive process and with life itself," Love said. "However, I believe that the bill as written contains safeguards and is designed to do something about areas of suffering and abuse which have been of concern to a great many people for a great period of time."

WIDE MARGINS

The former attorney who was elected governor in 1963 in his first try at public office said, "The illegally procured abortion is a matter which concerns all of us."

The bill passed both houses of the Colorado legislature two weeks ago by wide margins, despite threatening letters to legislators, hissing from the galleries and picketing outside the state Capitol by Catholic mothers, some carrying babies.

One state senator said it was "a bill against motherhood."

THREE-DOCTOR BOARD

The measure would allow abortions in cases where a three-doctor board in accredited hospital agreed unanimously that:

• The pregnancy would result in the death of the mother or serious, permanent impairment of her physical or mental health.

• The child would likely be born "with grave and permanent physical deformity or mental retardation."

• The pregnancy resulted from forcible rape or incest and no more than 16 weeks of gestation had passed.

• Girls under 16 become pregnant from statutory rape or incest.

State Senator John Bermingham, chief sponsor of the bill in the Senate, said it would help reduce an estimated 5,000 deaths a year in the U.S. from illegal abortions.

The measure has no Colorado residency requirement, meaning women from other states could get an abortion in Colorado if they qualified under the law.

STATE MURDER

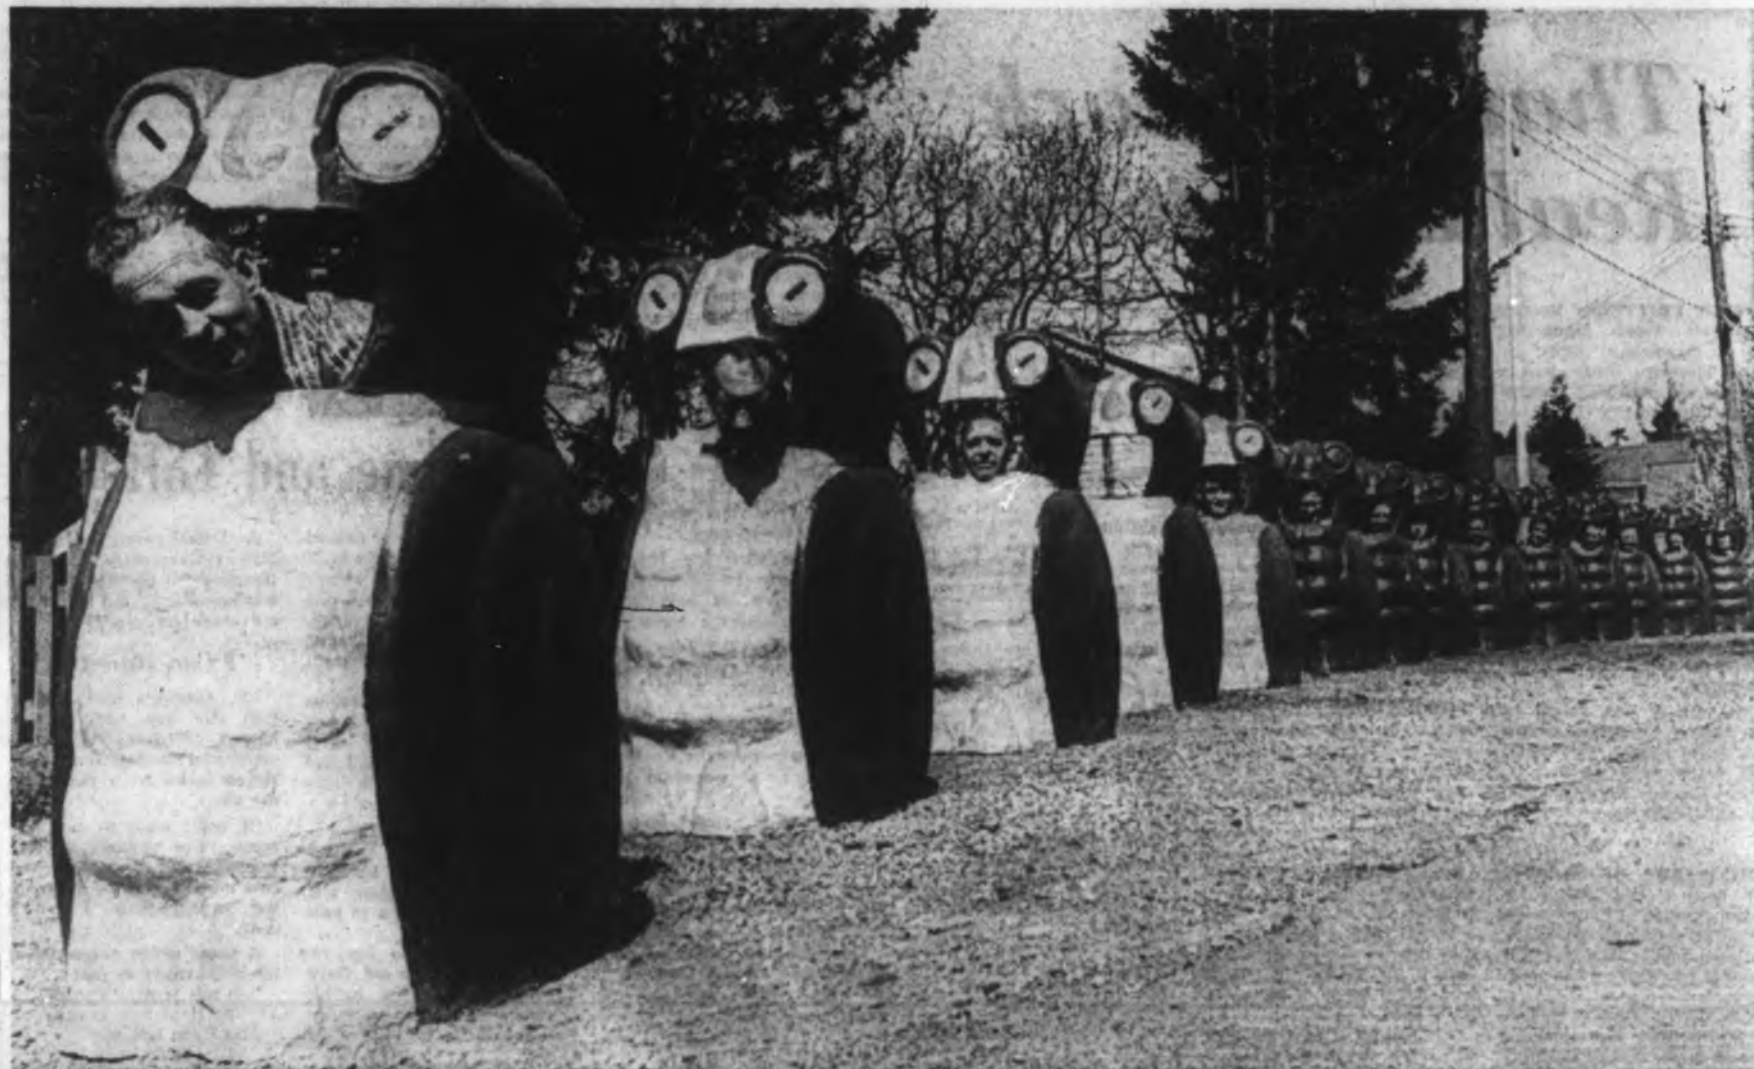

State Senator Vincent Masauri called the bill legalized "state murder." He said it would make Colorado the "abortion mecca of the world."

Love disagreed. But he said he received about 5,000 letters and telephone calls on the abortion bill, running 3-2 against it.

Riders Escape Flaming Plane

SAN JUAN, P.R. (UPI)—A Caribbean airliner carrying 54 persons skidded off the runway in flames Tuesday night after landing at Puerto Rico's Isla Verde airport on a flight from St. Thomas in the Virgin Islands.

First reports said only four persons were injured. The fire was extinguished within minutes, officials said.

Just Litter Caper

Making like a bunch of purple people eaters are these grinning garbage gobblers—but it was just a coffee-break caper by foreman Len Shaw and his staff of 13 at Langford parks branch workshop. Fibreglass waste containers have been in use for about 10 years on highways throughout B.C. — (Jim Ryan)

House Passes Unification Bill

By RON COLLISTER
Ottawa Bureau

OTTAWA — The Commons last night voted 127 to 73 after the government dropped the

guillotine to unify Canada's the 185-man guard for visiting three armed forces in an olive-green uniform.

The uniform will be on display next month, and will be worn by

269 Beneficiaries Around World

He's Running Out Of Time and Gifts

By NANCY BROWN

He's almost as old as Canada itself, and his personal way of celebrating his and the country's birthday is by giving money away.

Abraham Gowler was born in Toronto 92 years ago, the son of a Lincolnshireman and an Irish lass.

His father's name and his grandfather's name was Abraham Gowler. His brothers were Isaac and Jacob.

Lives Alone

He has lived alone in a room in the Yates Hotel for eight years.

A religious man, he has been giving one-tenth of his income to his church since he first started working for \$2 a week as a newsboy, in gaslit Toronto.

He began his Centennial project last September. It was then that he decided that a tangible appreciation token to church ministers he had known would be his idea of a birthday present to himself.

Three Squares

The idea snowballed in his mind, and on March 29 this year, 269 people from as far away as England and Buenos Aires received gifts of \$1 to \$50.

"I've got enough money left to get myself three square meals a day," said Mr. Gowler.

Little Girl Upsets Marble Price Rise

LONDON (UPI)—A nine-year-old girl, angered by a one-penny increase in the price of a bag of marbles, started a government inquiry that ended Tuesday with a price rollback and a penny refund from the marble manufacturers.

Joanna Wilkinson sent a letter to the Board of Trade last month, complaining that the increase in the price of marbles from six to seven pence a bag was unfair in view of the nationwide freeze on pay and price increases.

Douglas Jay, president of the Board of Trade and a member of the cabinet, started an investigation. The marbles manufacturer apologized and cut the price back to six pence a bag.

The company also sent Joanna a penny's worth of credit. She spent it on candy.

Superport Something Else

No Federal Bar For Coal Deal

VANCOUVER (CP)—The federal government isn't likely to block plans by Crown Coal Industries to ship coal from eastern B.C. to Japan even if shipment is partly over U.S. rails, Trade Minister Winters said Tuesday.

The company is negotiating with the CPR and the U.S. Great Northern Railway on shipping plans, with Great Northern having quoted the lowest price to date.

"Naturally, we would like to see it done in a way that would best benefit Canadian employment and industry," said Mr. Winters. "But if the only reasonable way is over a U.S. line, we would have to look at it."

SUPERPORT

Part of the Japan deal is inclusion of construction of a superport at Roberts Bank, 20 miles south of Vancouver, to handle huge bulk carriers.

W. R. Prentice, CNI president, said Tuesday that hopes of closing the Japan deal will vanish unless the Robert Banks port is built.

"The superport could be operating in 18 months from the time we sign a contract," Mr. Prentice said. "But the contract will fall through if the proposed port doesn't go ahead."

NO COMMENT

Mr. Winters said he would not comment on whether he favored the B.C. government's plan for a superport. He said that would be a subject for the federal transport department to deal with.

U.S. Reviewing Aid to Greece

WASHINGTON (UPI)—The United States sought Tuesday to help young King Constantine force the military-backed regime in Greece to restore constitutional government.

The state department said the large American military aid program to Greece was placed "under review" after the Friday coup in which a junta of colonels took over and installed Constantine V. Kollias as premier.

This wording usually is used when the United States seeks to warn a government seizing power that its future assistance from this country may depend

upon the degree of its reversion to democratic principles.

The state department's declaration accompanied private efforts being made by U.S. Ambassador Phillippe Talbot in Athens to encourage a more moderate course by the Greek militarists.

Talbot has told the new regime that a rigid right-wing dictatorship would have an extremely adverse effect on American and most other world opinion.

State department press officer Robert McCloskey said U.S. military assistance to Greece during the year which ended last June 30 totalled \$78,800,000.
